MR. BLAKE GETS HIS SEAT

He Was Elected in South Longford Yesterday by a Majority of Two Thousand.

The Liberals and Their Allies Had a Majority of One at Five O'clock To-day.

Gains in the Agricultural Districts—Timothy Healy Gets Roughly Handled.

TORONTO, July 14.—The World's commissioner accompanying Hon. E. Blake cables this morning that the latter has been elected in South Longford by 2000 majority.

LONDON, July 14.—At noon the returns gave Gladstone one majority over the Government. At 2 o'clock this afternoon the returns made Gladstone and the Government on exactly equal terms. Up to 5 o'clock this afternoon the total returns show the election of 246 Conservatives, 226 Liberals, 50 anti-Parnellites, 39 Liberal-Unionists, 7 Parnellites and 3 Labor men. This leaves the Government with 285 supporters and 286 opponents, there being yet 99 elections to come off.

The Liberals continue to make gains in the agricultural districts, and fully count on carrying a good majority of the remaining contests. Yesterday they captured the Frome division of Somersetshire, which was represented by Viscount Weymouth, eldest son of the Marquis of Bath. In the election of 1886 Lord Weymouth was elected over Mr. Samuelson, Liberal, by a vote of 4349 to 2247, but yesterday he was defeated by a Mr. Barlow. This is a severe reverse for not only the house of Thynne but the whole aristocracy. Other elections yesterday were:—

Renfrewshire, East—Michael Hugh Shaw-Stewart, Conservative, re-elected, 4484; John G. Murdoch, Liberal, 3397.

Cheshire, Macclesfield—W. Bromley-Davenport, Conservative, re-elected, 4332; J. Carlyle McCon, Liberal, 3395.

Cheshire, Altringham — Coningsby Disraeli, Conservative, elected, 5056; Isaac S. Ledam, Liberal, 4258.

Yorkshire, Otley—John Barran, Liberal, re-elected, 4717; Darcy Wyvill, Conservative, 4023.

Yorkshire, Spen Valley—T. S. Whittaker, Liberal, elected, 4952; K. Ellis, Conservative, 3747.

Sutherlandshire—Angus Sutherland, Liberal, 1473; P. J. McKay, Liberal-Unionist, 607.

Argyleshire—D. H. McFarlane, Liberal, elected, 3666; Col. John W. Malcolm, Conservative, 3586. This is a Liberal gain, largely from the Crofter issue.

Clackmananshire and Kinross—Right Hon. John Blair Balfour, Liberal, re-elected, 3641; Atchison, Liberal-Unionist, 1927.

Mr. Gladstone has written a letter to the electors of Midlothian, gratefully thanking them for having elected him for the sixth time, and under local circumstances of special stress and difficulty, to represent them in the House of Commons. He expresses an earnest hope that he will not fall behind the electors in his desire and effort to minister to the happiness of the people of the three kingdoms and the strength and consolidation of the empire.

DUBLIN, July 14.—The Independent, the Parnellite organ, says that a select circle of Liberals in London last night received the announcement that the Home rule bill will be postponed by an agreement with the Irish party in order that some big reform measure may be introduced in the coming Parliament.

T. M. Healy has been elected to Parliament for North Longford. There was much rowdyism during the polling. Healy was assaulted and one of his friends was killed.

Cholera in France.

MADRID, July 14.—The government commission reports that the disease prevalent in Paris is Asiatic cholera. As a consequence steps are being taken to prevent its introduction over the Pyrenees.

PARIS, July 14.—The authorities have voted 150,000 francs for the erection of wooden cholerine hospitals in case of necessity. Steps are being taken to substitute spring water for that from the Seine for drinking purposes.

May Go To England.

OTTAWA, July 14.—There is a possibility of Premier Abbott visiting England this fall. It is felt in official circles that a friendly consultation with the Imperial authorities on the Newfoundland question, Canada's trade relations with the mother country, the colonies and with the United States on the Behring Sea matter, would be mutually advantageous to both countries. He has not yet signified his intention of making the trip, but it is known he is being strongly urged to do so.

The Homestead Troubles.

NEW YORK, July 14.—Samuel Gompers, president of the American Federation of Labor, says they have been watching all the labor agencies in this city and Brooklyn. They succeeded in persuading all applicants for work to keep away from Homestead. He is positive no non-union men would go to work there.

PITTSBURG, July 14.—Lovejoy, secretary of the Carnegie company, says the threat of the employees of several of the company's mills to strike unless the company grants a conference with the Homestead men, will have no effect on the company. The company will under no circumstances hold a conference, even if every man in every mill operated by the company goes out.

Cashier Murray's Proceedings.

NEWBURG, N.Y., July 14.—The investigation into the accounts of treasurer Wm. A. Murray, the defaulting cashier of the Goshen national bank, has already developed one thing for which he is harshly criticised. When Murray entered on his duties as county treasurer the Supreme Court fund, made up principally of money belonging to minors, and which usually amounts to more than $150,000, was nearly all invested in bonds and mortgages. Some of these bonds had been made years ago by former treasurers, and by transfers from the credit of one estate to that of another had been carried along for years. Mr. Murray determined on calling in these loans, and ignoring the fact that the interest had been paid promptly on them and that in many cases the security was more than ample, gave notice to the mortgagees that the loans must be paid without delay. Some on whom these demands were made were able to respond promptly, but others could not raise new loans in the limited time given them. Murray then made application to the court for an order giving him permission to foreclose 65 mortgages on farms in this county. Appeals for loans were made in vain, and some of the mortgages were foreclosed, ruining some of the holders. The proceeds were sacrificed, and the children whose money was lent on them must stand the loss in cash. When loans were paid the interest ceased, and thus a wrong was done the children whose money had been called in. Under the law the treasurer is allowed fees on all money paid in or out of the treasury on account of this fund, but it seems almost incredible that Murray could have put the screws on so many borrowers simply for the fees to which he would be entitled.

RIOTING AT WALLACE.

Troops Will Have to Fight—The Massacre Magnified.

SPOKANE FALLS, Wash., July 14.—It was reported this morning that the Mission massacre had been greatly exaggerated; only one man was killed and two accidentally wounded. It is now reported that the troops have penetrated the mining districts as far as Wallace, and that there is rioting going on there. The reported peaceable intention of the miners is evidently a bluff, and soldiers will have to fight. Troops from Fort Spokane left here at 11 o'clock for the seat of war.

DROWNED AT OSOYOOS.

Contractor Sues Westminster—Thos. McWyan Drowned.

NEW WESTMINSTER, July 14.—Thos. McWyan of Osoyoos, was drowned last week while trying to get a pack horse out of the water.

Waterworks Contractor McQuarrie has sued the corporation for sixteen thousand dollars. The city claims that only six thousand is due McQuarrie.

Two new cases of smallpox were discovered last night in the Chinese quarters. They came over from Vancouver last week. This morning when Health Inspector Pearce went to quarantine the Chinese they were gone. No guard was placed over the shacks.

It is thought that Francis A. McKeown, who broke jail in Vancouver, was driven out of the city last night by a woman.

A warrant is out for John McLeod, Vancouver, charged with obtaining goods under false pretences.

Absence of vaccine points in Westminster is causing alarm. All the points were sent to Victoria.

Passengers by the steamer Yosemite came into Westminster by the morning train, and will go to Vancouver by tram car. The Vancouver authorities are watching all Westminster cars.

H. B. Company.

LONDON, July 14.—At the meeting of the Hudson's Bay Co., Sir Donald Smith presiding and a large number of shareholders present, the efforts made by Mr. Chipman, the commissioner at Winnipeg, to reduce expenses and bring the company into line with modern times were approved. The old board of directors were all elected with the exception of Sir Thomas Eldridge, whose seat will be left unfilled for the present.

Judgment Reserved.

LONDON, July 14.—The appeal of the city of Winnipeg against the decision of the Supreme Court in the case of Barret vs. city of Winnipeg, came before the law lords of the Imperial Privy Council for argument on Tuesday the 12th, and lasted nearly three days. It was finished to-day, and at the conclusion judgment was reserved.

Cholera Feared.

SAN FRANCISCO, July 14.—Regarding the spread of cholera in Asia and China a report states that there is danger of the disease being introduced here, and advises cleanliness as a safeguard.

The Eliza Edwards.

SAN DIEGO, July 15.—The Eliza Edwards was discovered to-day anchored in the stream along shore below this city. The custom officials are watching her closely.

SUPREME COURT CHAMBERS.

(Before Mr. Justice Walkem.)

Braden vs. Stamford—Plaintiff applied for judgment under Order XIV. Application refused, provided amount in question be paid into court at once. Mr. Eberts for plaintiff, Mr. Irving for defendant.

Lockhart vs. May & Morun—Same application as above. Refused.

Cowan & Shaw vs. Boyer & Spencer—Application by sheriff for interpleader order granted. Mr. David Spencer, the claimant of the goods seized in the defendant's possession, to be plaintiff. Mr. Eberts for Sheriff, Mr. Hall for claimant, Mr. Irving for plaintiffs.

K. D. C., is the best known remedy for dyspepsia. Ask your druggist for it, or apply to Beckwith, Thompson & King, agents for B. C. *

STILL IN THE BALANCE.

Four Fresh Smallpox Cases Reported and Two Deaths Since Last Night.

Provincial Authorities Will Have All Cases Quarantined Before To-Morrow.

Mail Matter for the Sound Refused Last Night---Further Fumigation Demands.

There has not been much change in the aspect of affairs since last evening. The number of cases reported since last night has been slightly larger than on the preceding days. The two lamentable deaths of Messrs. Brown and Burrows have cast a shadow over the city, as both of them had many friends, and were much respected. The vigorous action of the provincial authorities in ordering every case of smallpox out of the city before midnight and the swearing in of a number of special constables, has caused quite a stir. By an agreement come to by the medical men Dr. Crompton assumes entire care of all the cases in the city, while Dr. Richardson looks after those at the quarantine station. By the statements made by various medical men spoken to to-day there can be no doubt that all fears of the disease spreading further may be set at rest. They say that the danger is practically over, and that the regulation compelling the immediate removal of each case as it is discovered diminishes the chances of the disease making any further headway.

Health Officer's Daily Bulletin.

Since issuance of the last report there have been four new cases reported to this office. One of these was the development of a suspected care which was under surveillance. One case came to my office this afternoon at 2:30 and was immediately dispatched to quarantine. The total number of cases to date is 54, distributed (at this writing) as follows: In the city 16, Jubilee Hospital station 24, Albert Head 14. Two deaths occurred last night, William Brown at his residence on Pandora avenue, and Thomas Burrows at Albert Head quarantine station. Both were interred immediately. The cases reported to-day are J. Robinson, Mrs. Butler, and one William, a butcher. The purchase by the city of a special ambulance carriage has much facilitated the work of removal. We expect a consignment of fresh vaccine in this evening.

G. L. MILNE,
Health Officer.

VANCOUVER VIOLENT.

The Yosemite Landed Passengers at Port Moody—Railway Quarantined.

VANCOUVER, July 14.—The Yosemite left for Port Moody this morning and landed her passengers and is now lying at her wharf here. The authorities offered no objection to the vessel landing, but will quarantine for fourteen days any passengers coming from Victoria.

An effort will be made to arrest the passengers landed at Port Moody this morning if they attempt to come to the city.

The news of an increase in the number of patients in Victoria stimulates the authorities here to greater determination to enforce quarantine regulations.

Quarantine has been placed on the railway at Sumas by the State of Washington.

The threat to send a detachment of the battery to compel the free admission of the people from Victoria is laughed at here. Should such be attempted, Vancouver will be equal to the emergency. No defiance of law by rigid enforcement insisted upon by citizens.

After receiving the injunction by wire from Victoria, the council held a special meeting to consider the matter. They decided to allow the passengers to land on condition that they go into quarantine, which they refused to do, preferring to remain aboard. The Yosemite laid to until about 4 this morning, and then started for Port Moody and landed her passengers. The passengers will probably go to Westminster or walk in. A sharp lookout is being kept on them. The Islander was expected last night and "fun" was looked for on the arrival of Captain Irving. She is not yet sighted. The Yosemite leaves to-day on time with a few passengers.

Messrs. Gordon and Earle arrived to-day from Ottawa.

The Order Obeyed.

Mr. E. V. Bodwell, solicitor for the C.P.N. Company received word this morning that the order of the Supreme Court, restraining the city of Vancouver from preventing the Yosemite landing, had been obeyed. It was with the understanding, however, that the passengers should be quarantined for 14 days in Vancouver. "The order has been obeyed," said Mr. Bodwell, "and if the passengers are quarantined they will have to apply for a habeas corpus.

No Governmental Action Yet.

Hon. Theodore Davie was spoken to this afternoon by a TIMES reporter with reference to the probable action of the Government regarding the rebellious conduct of the Vancouver authorities. Mr. Davie said that nothing had been done, and that until official information was received from Vancouver nothing could be done. He understood that the passengers had been allowed to land. He had not heard that 14 days' quarantine was to be imposed on all passengers landing in Vancouver from Victoria, or that the Yosemite's passengers preferred the discomforts and confinement of shipboard rather than risk their safety in Vancouver, it being understood among them that the smallpox was more prevalent there than in Victoria. He did not think that quarantine would last long.

A Very Bad Case.

This afternoon, as a representative of the TIMES was speaking with Dr. Milne in his office, a man opened the door of the consulting room, walked in and took a chair without saying a word. He began to gasp and sigh in a few moments and Dr. Crompton, who was present, was requested by Dr. Milne to take the man out into the yard and examine him. He gave his name as E. J. Wetterer and has been living in Trounce avenue. He slept out in Beacon Hill Tuesday and Wednesday nights, suspecting that the pains he felt were the preliminary symptoms of smallpox. Dr. Cromptom after examining the man at once pronounced him an advanced case. The pustules were thick upon his forehead and his temperature proclaimed that he had it badly. Dr. Milne ordered him to be kept closely guarded in the yard in case the Colonist's nerves might be shaken by the man being left alone a moment. At last accounts the poor fellow was picking the cherries while waiting for the ambulance. He was sent to quarantine this afternoon.

From Albert Head.

Dr. Fraser visited Albert Head quarantine station yesterday afternoon. He reported to Dr. Milne that all the patients, with the exception of Thomas Burrows, who leaped through a window into the sea the other day, were progressing favorably. Most them are walking about the grounds, while the remainder will be able to be up and about in two or three days. Mr. Lilley, the confectioner, is doing very well. He will be able to leave his room before the end of the week. The doctor said they would all pull through nicely. When he left Burrows was hovering between life and death. This patient died last night, and was immediately buried. The patients are supplied with everything necessary.

California Board of Health.

SAN FRANCISCO, July 14.—The report of the state board of health for June says: "Smallpox is not reported in California. It is, however, reported epidemic in Victoria, B. C., and although Washington lies between here and that point it may be necessary to place an inspector at the northern boundary of the state to detain any persons showing symptoms of the disease."

Jubilee Quarantine Patients.

The names of the patients at the Jubilee Hospital quarantine station are as follows:

Males—Phillips, Smart (a boy from the Clarence Hotel); Sprung, Campbell, (Kane street), Hutcheson (Fort street), Brown (Douglas street), L. Deerlie, Willie, an orphan, Ramsay, from the cabins; Jessop, Eddington, from Johnson street cabins; Wright, F. McKim, (boy from Clarence Hotel); Monk House (Clarence) Lindley, a boy.

Females—Annie Bull, Mrs. Sweat, a nurse; Rose Hamilton, of the P. O. Home; Isabel Scone, Indian; Mrs. H. Cavel, colored. The two last cases are very severe ones.

Dr. Davie's Statement.

Dr. J. C. Davie, Provincial Health Officer, last evening issued the following report:—

PROVINCIAL HEALTH OFFICE,
11 p.m., July 13, 1892.

I received a telegram to-day from the health officer at Vancouver, stating that the number of cases of smallpox in that city is five. The New Westminster health officer reports that there is one case in Westminster. The Nanaimo health officer wires that there is not a single case of smallpox there, and the proper precautions have been taken to prevent the introduction and spread of the disease. The steamer City of Nanaimo, from Vancouver, arrived at Nanaimo with an excursion, and only those who had been properly vaccinated were allowed to and, while unvaccinated people were detained on board. The Nanaimo health officer empowers me to say that the reported quarantine of Victoria by that city is untrue. In Victoria there are, to-night, the following cases, viz: At Albert Head quarantine station, 15 patients; at Jubilee Hospital quarantine, 21; throughout the city, 17. Total, 53 cases.

I have requested Dr. Milne, the municipal health officer for Victoria, to furnish me, by 10 a.m. to-morrow, with a list of the names and places of residence of all smallpox patients in the city and, if persuasion fails, the police will be employed in removing all cases within the city to the Jubilee Quarantine Hospital, within the next 48 hours. The buildings from which the patients are taken will then be closed under seal and will be properly disinfected under the supervision of the municipal health officer.

Yesterday, the 12th inst., I wrote officially to Mayor Beaven, requesting him to have Dr. Crompton permanently stationed at the Jubilee Quarantine Hospital for the treatment of patients and the general supervision of the station. I requested an immediate reply from him. He has seen fit to give me no answer The president of the hospital, by my advice, has, therefore, superseded Dr. Crompton, the municipal physician, and has placed Dr. Richardson, of the Jubilee Hospital, in charge of the station, and he will not leave the establishment.

I also officially requested the Mayor to furnish me with an isolated building for the detention of all suspects and of those persons who may have been in attendance upon sick people who have been removed to the quarantine station, in order that such persons shall be vaccinated and isolated and kept isolated until they are no longer a danger to the inhabitants of the city. I again asked for an immediate reply. I have received no answer. If the same is not forthcoming to-morrow I shall apply to the provincial authorities to obtain such a building, as it is an absolute necessity.

The remedies for the prevention of the spread of the disease are:

1. And decidedly the most important, the vaccination of all, particularly of children who have never been vaccinated.
2. The removal from the city of all cases of smallpox and their careful quarantine.
3. The isolation and vaccination of all suspects.
4. Rigid disinfection of all apartments from which patients are taken.
5. Careful examination of all persons coming to Victoria.

If the foregoing precautions are taken and the rules suggested carried out with energy, the outbreak in this city will soon be a thing of the past.

It cannot be too well understood that we owe the introduction of smallpox into British Columbia to the ridiculously indulgent quarantine laws provided by the Dominion Government. At their door lies the paralysis of the business of the city—the expense to which this municipality has been put. Last, but not least, the illness and death of a number of the inhabitants of the city. Honor to whom honor is due.

J. C. DAVIE, M.D.
Provincial Health Officer.

Will Remove the Patients.

The provincial police, assisted by six special constables sworn in for the purpose will this evening remove every smallpox patient from the city to the quarantine grounds at the Jubilee hos-

SANITARY and other WALLPAPER

THE COQUITLAM LIBEL.

Captain William Grant Brings Down a Copy of the Information.

The Many and Varied Charges Laid Against the Sealers' Supply Steamer.

Among the passengers from the Sound last evening was Captain William Grant, who arrived at Port Townsend yesterday on the City of Topeka. Captain Grant was one of the sealers' representatives who was on the Coquitlam when she was seized. All those on board the steamer with the exception of Captain McLellan were released shortly after the steamer arrived at Sitka. Captain McLellan will have to give bonds to appear when called upon. The Coquitlam was handed over to the customs authorities, who discharged the cargo and intended to appraise it and the vessel the day after Captain Grant left.

Captain Grant corroborates the statement that no cargo was transferred except outside Point Tonki, fully five miles from shore. Captain Kelly remained at Sitka.

The following is the official libel and information in affect, filed in the district court of Alaska.

To the Honorable Warren Truitt, Judge of the United States District Court of the District of Alaska:

The libel of information of C. S. Johnson, attorney of the United States for the District of Alaska, who prosecutes on behalf of the United States, and being present in court, in his proper person, in the name and on behalf of the United States against the steamer Coquitlam, her boats, tackle, apparel, furniture, boilers, engines and cargo, and against all persons intervening for their interest therein in a cause of forfeiture, alleges and informs as follows:

That C. L. Hooper, a captain in the United States Revenue Marine Service, commanding the United States revenue cutter Corwin, on duty in the waters of Alaska, and duly authorized in the premises, heretofore, on or about June 22, 1892, at or near Port Etches, seized the steamer Coquitlam, her boats, tackle, apparel, furniture, engines, boilers and cargo, and turned the same over to the collector of customs for the port of Sitka, in said District of Alaska, where they now are, as forfeited to the United States for the following among other causes:

That on or about June 19, 1892, within the limits of the United States, within the limits of the Alaska collection district and within the waters thereof, within four leagues of the coast of said District of Alaska, and within the jurisdiction of this court, to-wit: At or near the island of Afognak, there was unladen from the following named vessels the merchandise and cargo hereinafter named: From the schooner Brenda, 409 fur sealskins; the Umbrina, 707 fur sealskins; the Sea Lion, 629 fur sealskins; the Venture, 150 fur sealskins; the Maud S., 773 fur sealskins; and from the Walter A. Earle, 1225 fur sealskins. That afterward—to wit, on or about the 20th or 21st days of June, 1892—within the limits of the United States, and within the said collection district and the waters thereof, and within four leagues of the coast of said district of Alaska, in the Gulf of Alaska, there was unladen from the Oscar & Hattie 161 fur sealskins; and from the Viva 1654 fur sealskins, and from the Fawn 472 fur sealskins, aggregating in the sum of 6190 fur sealskins so unladen. That each and all of said vessels so unlading said merchandise were from the port of Victoria, in British Columbia, or some other foreign port, were laden with merchandise, were bound for the United States, and on or about the 18th day of June, 1892, were anchored in a small bay in Afognak Island and elsewhere in the waters adjacent to the land and within the collection district of Alaska. None of the said vessels at the time of so unlading said merchandise had come to the proper place for the discharge of their cargo, nor any part thereof; nor had any of them been authorized by the proper officer of the customs of the said district of Alaska to unlade the same, and said unlading was not made necessary by any unavoidable accident, necessity or distress. That all of said merchandise so unladen from on board said vessels was put and received into said steamer Coquitlam at the times and places the same were unladen as hereinbefore set forth. Said merchandise was so received into said steamer Coquitlam with the full knowledge and consent of one E. E. McLellan, who was then and there master of said vessel, all contrary to the provisions of section 2867 and 2868 of the Revised Statutes of the United States in such case made and provided.

The attorney further alleges that the Coquitlam on the 8th day of June, 1892, cleared from the foreign port of Victoria, in British Columbia, laden with a large amount of general merchandise, to wit: One hundred tons or more. That on about the 18th day of June, 1892, said vessel, with her said cargo, arrived in a small bay or harbor in the island of Afognak, U. S. That the office of the deputy collector of customs which was nearest to the point at which said vessel so entered the waters of the United States, is at Kadiak. That all the times complained of herein, E. E. McClellan was master of the Coquitlam. That said master did not report at the office of said deputy collector of customs at Kadiak, nor did he report to any collector or deputy collector of customs for said district of Alaska. Nor did he obtain or receive a special permit from such collector or deputy collector to proceed further inland to unlade or take in cargo. Yet said vessel on or about June 19, 1892, within the collection district of Alaska, within the waters of the United States, within four leagues of the island of Afognak, and within the jurisdiction of this court, did unlade a large amount of general merchandise from said steamer Coquitlam and did transfer said merchandise from said steamer Coquitlam to the British schooners Brenda, Umbrina, Sea Lion, Venture, Maud S, Winefred, Libby and Walter A. Earle, and did then and there receive and take in as cargo from each of said schooners, except the Winefred and Libby, a large quantity of fur seal skins, aggregating in all the number of 3893. All contrary to the provisions of Section 3109 of the Revised Statutes of the United States in such case made and provided.

Said C. S. Johnson further alleges that the cargo ought to be forfeited to the United States, for that on or about June 19, 1892, the British vessels Brenda, Umbrina, Sea Lion, Venture, Maud S. and Walter A. Earle, after having cleared from the foreign port of Victoria in British Columbia, or some other foreign port, being laden with merchandise and bound for the United States, on or about June 20 and 21, 1892, and after said vessels had arrived within the collection district of Alaska and within four leagues of the coast thereof, in the Gulf of Alaska, did unlade a large amount of cargo and merchandise, to wit: 2297 fur seal skins, before any of said vessels had been duly authorized by the proper officer of the customs to unlade the same. That said unlading was not due to any unavoidable accident, necessity or distress of weather, and said 6190 fur seal skins so unladen were found on board said steamer "Coquitlam," and were and are a part of the cargo seized as hereinbefore set forth. Said unlading was contrary to the provisions of section 2867 of the Revised Statutes of the United States in such case made and provided.

Said C. S. Johnson further informs that the cargo of the steamer Coquitlam should be forfeited to the United States for the further reason: That said steamer Coquitlam is a foreign vessel, owned in Vancouver, in British Columbia. That on June 8, 1892, she cleared from the foreign port of Victoria in British Columbia for the North Pacific ocean. That on or about June 22, 1892, and without having cleared from any other port, said vessel brought into the United States, at Port Etches, in the district of Alaska, from a foreign port or ports to said attorney unknown, except as hereinbefore stated, a large quantity of merchandise, said merchandise being of the value of $60,000 and more. That at said time one E. E. McLellan was the master of said vessel, and he, the said master, did not then and there have on board of said vessel any manifest whatever in writing of said cargo signed by said master, or otherwise. That a large quantity of said merchandise was, by law, subject to duty, and the duty thereon had not been paid or secured to be paid to the United States. That all of said merchandise was so brought into the United States with the full knowledge of said E. E. McClellan, master of said vessel, and contrary to the provisions of sections 2896, 2807 and 2890 of the revised statutes of the United States in such cases made and provided. And all of the acts and things complained of in this libel of information as having been done and performed by said vessel and her said master, were done and performed with the full knowledge and approval of the master, contrary to the statutes of the United States in such cases made and provided, in violation of the customs and revenue laws of the United States and with the intent then and there to defraud the revenues of the United States. And the said attorney saith, that all and singular the premises are true and within the admirality and maritime jurisdiction of the United States in such cases made an provided, the aforementioned and described vessel, her boats, tackle, apparel, furniture, boilers, engines, cargo, and all things found upon and appertaining to her, became and are forfeited to the use of the United States of America.

Wherefore the said attorney prays that the usual process and monition of this honorable court issue in this behalf, and that all persons interested in the aforementioned vessel and cargo be cited in general and special to answer the premises, and all due proceedings being had that the said vessel, her boats, tackle, apparel, furniture, boilers, engines, cargo, and all things found upon and belonging and appertaining to said vessel, may, for the causes aforesaid, and others appearing, be condemned to the use of the United States of America, according to the form of statutes of the said United States in such case made and provided.

(Signed) C. S. JOHNSON.
United States Attorney for the District of Alaska.

The contents of the information were this morning telegraphed to Premier Abbott. They will be forwarded by him to England.

You've tried Dr. Pierce's Favorite Prescription have you and you're disappointed. The results are not *immediate*.

And did you expect the disease of years to disappear in *a week*? Put a pinch of time in every dose. You would not call the milk poor because the cream does'nt rise in an hour? If there's no water in it the cream is sure to rise. If there's a possible cure, Dr. Pierce's Favorite Prescription is sure to effect it, if given a fair trial. You get the one dollar back again if it don't benefit or cure you. We wish we could give you *the makers'* confidence. They show it by giving the money back again, in all cases not benefited, and it'd surprise you to know how few dollars are needed to keep up the refund.

Mild, gentle, soothing and healing is Dr. Sage's Catarrh Remedy. Cures the worst cases *permanently*. No experimenting. It's "Old Reliable." Twenty-five years of success. tu-th-s-w

When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria

John W. Foster.

John Watson Foster, successor to Ex-Secretary of State Blaine, was born in Pike County, Indiana, March 2, 1836. He practiced at the bar in Evansville, and later entered the Union army, where he rose to the command of a regiment under Grant. He was Minister to Mexico during Grant's administration and during one year of President Hayes' occupancy of the executive office. He was transferred to Russia and was Minister there for one year, resigning to practice at Washington in International cases. Since the beginning of the Harrison administration he has represented the State Department in its establishing of reciprocity treaties with foreign nations. He was instrumental in formulating the Spanish-American treaty and had much to do with framing the reciprocity treaties now in existence with six of the South American republics. He has been in charge of the American case in the Behring Sea arbitration.

THE WILMINGTON.

Circumstances Attending the Seizure of the Steamer for Opium Smuggling.

ASTORIA, Ogn., July 11.—Numerous reports having aroused the suspicions of Collector Taylor, it was decided to make a thorough search of the Wilmington on her arrival here, and if possible verify the reports by making a capture of contraband opium. At 8:30 p.m. Sunday, the Wilmington was reported as passing in, and immediately Collector Taylor marshaled his force, consisting of Deputies Smith, Linville, Kearney and Parker, of Astoria; Special J. C. Mulkey, of Portland, with Deputies Armstrong and Halster, Dr. Walker, health officer, and Chief Engineer Harry Lord, of the lighthouse tender Manzanita, the latter to take charge of the engine rooms. When the Wilmington steamed past the lower part of the city, the officers, in two whitehall boats, started from Hustler's wharf to intercept her. The men were distributed through the ship, Deputies Linville and Smith going into the foreshold. Here part of the freight consisted of 250 barrels of lime, taken aboard at Roche harbor, an American port. As the lime was rolled back, barrel after after barrel was brought to light, until four barrels, each containing about 250 cans of opium, had been found, in all 450 pounds of prepared opium. The barrels were marked "J.A., Nanaimo," the stuff no doubt being shipped from that place. The opium is not from the refineries at Victoria, but is the genuine Ja'yusn, manufactured in China. It was decided this afternoon to refuse bonds to the steamer, and the vessel was formally seized by the United States Government. A telegram was sent to United States Marshal L. T. Barin, notifying him of the seizure, and requesting him to come to Astoria and take charge.

PORTLAND, July 13.—U.S. Attorney Mays filed last evening a libel against the steamship Wilmington, which now lies at Astoria, and before now the vessel is in the custody of a deputy marshal. It is charged in the libel that on July, 1892, at Astoria, Oregon, E. A. Taylor, collector of customs, seized the Wilmington, a steam vessel of the appraised value of $50,000, and now holds the same within his custody as subject to a penalty of $4590 due to the United States. It is further alleged that "the steamer Wilmington, on or about the 6th of July, 1892, did at Nanaimo, B.C., with the full knowledge, consent and privy of C. F. Gilmore, who was during the time hereafter stated the master of the Wilmington, 900 five tael cans of prepared opium, and did, with the knowledge, consent and privy of said master, stow and secrete the opium within the steamship, and did, with the knowledge, consent and privy of the master convey the opium into the United States, to the port of Astoria." William Dunbar, one of the owners of the Wilmington, is perfectly satisfied that the smuggling was done by outside parties with the assistance of some of the crew. He ridicules the idea of the officers being implicated in the matter and speaks most reassuringly of Captain Gilmore's integrity.

Injured Husband Killed.

ATLANTA, Ga., July 14.—J. F. Stephens, of Loyd county, was killed by his clerk, Wilkinson, who boarded with him, Tuesday, and was fatally wounded. During the past month Mr. Stephens believed his wife and Wilkinson were on too intimate terms. He came across a letter written by his wife to Wilkinson which confirmed his suspicions. On Tuesday he went to Rome and returned home much earlier than he said he would. He found his wife with Wilkinson, and without a word he drew a revolver and fired at Wilkinson twice. There being only two balls in the pistol he grappled with him and threw him to the floor. Wilkinson drew his pistol and fired at Stephens twice, one bullet taking effect between the eyes, from which he shortly died. Before dying he drew from his pocket a letter from his wife to Wilkinson and wrote on the back: "I caught them in the act," handed it to his man servant, and said, "Take these to my father; they will tell a tale." Mrs. Stephens grabbed at the papers and said, "No," but before she had time to procure them from the servant he had gone to fulfil his mission.

Billiard Player Insane.

NEW YORK, July 14.—Joseph Dion, the billiard player and ex-champion of America, is now one of the inmates of the home on Ward's Island for the city's pauper insane. He was taken there from Bloomingdale Asylum, where he had been a private patient. The transfer was made so quietly that it was not generally known and its publication will be a surprise to most of the old champions friends. It was suggested yesterday by some of those who were closely associated with Dion in the days of his prosperity and popularity, that he should not be permitted to end his life among such unpleasant surroundings. This suggestion probably will take definite shape in the near future by raising of funds by subscription to place and maintain him at some private retreat to pass the remainder of his days.

Mr. Robert W. Denvir

An Exempt Fireman of Jackson Engine Co., Long Island City, N. Y., says that at Christmas, 1890, he could only take a smell of dinner, as he was in a fearful condition from **Dyspepsia**. The next summer he went to Europe for his health, but came home uncured. In the fall he decided upon a thorough trial of

Hood's Sarsaparilla

And by Christmas had a hearty appetite, healthy digestion, and was perfectly well. His cure was due wholly to Hood's Sarsaparilla.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, and sick headache. Try them.

PEARY HEARD FROM.

The Story of a Wandering Sailor Man From Greenland.

A weather-beaten individual wandered into the navy pay office in the postoffice building on Wednesday, says the Philadelphia Ledger, and casually remarked that he had arrived in New York city the night before on the steamer Granada, which had just finished a trip from Greenland.

The visitor gave his name as M. R. Brand, and in appearance was a typical seafaring man. He said he brought information from Lieutenant Peary, whose Arctic expedition is still fresh in the minds of the interested public. At the mention of Peary's name the clerks in the immediate vicinity dropped their pens, and all attention was paid to the story of the visitor.

"Ninety-one days ago," he commenced, "the vessel on which I arrived was ice-bound in one of the floes in the Arctic region. While scanning the horizon for some new object to behold a small curl of smoke commanded our attention. Differing somewhat in color from those seen in those regions we were naturally anxious to ascertain from whence it emanated. The dog-sledge of the vessel was put into service, and the captain, one of his officers and myself started on a search journey. Before going far I was obliged to return to the vessel suffering from dysentery.

"The captain and his companion proceeded, and were gone a considerable time. When they returned to the vessel and I heard their story I regretted that I did not continue with them. The captain said they went but four miles when they discovered it was Peary and his small party. During the course of conversation Peary said that Mrs. Peary had left the party nearly three months before by a whaling ship bound for Denmark, by which route she expected to return to her friends. Peary further stated that they were all in good health and as rapidly as possible were pushing their way north."

Mr. Brand seemed to impress his hearers that he was thoroughly conversant with the geography of that portion of the country, and told his story in such a straightforward manner that their attention was rivited to him until he had finished.

DON'T WANT TO BE CIVILIZED.

Two Tribes in the Malay Peninsula Who Resist all Attempts.

Hundreds of steamers sail every year through the Straits of Malacca, bearing thousands of passengers who never dream that just behind the mountains along the narrow Malay peninsula are two tribes apparently untamable, that have scarcely any intercourse with the rest of the world, and wish only to be let alone. They are known as the Semang and the Sakei tribes, and are supposed to be the aborigines of the Malay peninsula. Ever since the vessels of civilized nations have frequented those waters they have lived there, and they have no traditions as to ever occupying any other region. Once, however, they extended down to the coast, but, the New York Sun says, the Malays drove them toward the centre of the peninsula, where, in the virgin forests, they found shelter against the human enemies whom they fear much more than they do the wild beasts around them.

The Sakei resemble negroes, and ethnologists who have seen a few of them wonder whence these black people with woolly hair, flat noses and thick lips derive their physical characteristics. The Semang tribe, on the contrary, are copper colored, with clear skins and brown cheeks and clear cut features. The tribes speak different languages, but they have the same customs and live on the best terms with one another. There seems, however, to be very little intermarriage among them and thus the types are kept distinct.

The Sakei communicate from time to time with the Malays, but the Semangs never leave their mountains. They seem to have no idea of religion, and their imaginations are not at all impressed by natural phenomena. Within their circumscribed limits they are among the greatest of wanderers. They lead a thoroughly nomadic life. They rarely remain 2 days in the same place, and do not construct the slightest shelter except occasionally a roof of boughs to cover them for a few hours from a storm of unusual violence. Like some of the natives of Terra del Fuego, they have no idea of building huts in which to live. They have no herds, and their greatest passion is the jealousy with which they guard their liberty and independence. White missionaries have made some attempts to gain influence over them, but have been wholly unsuccessful. No effort to give them any of the notions of civilization has succeed in the slightest degree. They have not assumed even those habits of civilization which prevail among their nearest neighbors, the Malays. They, however, have adopted some of the vices of civilization, among which is the tobacco habit. The weed does not grow in their country, and their occasional efforts to procure it from the coast are about the only relations they have with other people. Many of them speak a smattering of Malay or Siamese. Meyners d'Estrey is the only white man who is known to lived even a short time among these very peculiar people, and about all the information we have concerning them has been supplied by him.

The Manitoba School Case.

LONDON, July 14.—The Manitoba school case came before the Judicial Committee of the Privy Council on Monday. The Privy Council appeal is from the unanimous decision of the Supreme Court of Canada, voiding the legislative enactment of the Manitoba Legislature abolishing separate schools. Dalton McCarthy and Hon. Joseph Martin, with the help of Sir Horace Davey, appeared for the applicants. Their argument was unfinished when the committee rose. The argument will last two or three days. So far their Lordships have expressed no opinion.

Quick Passage.

SAN FRANCISCO, Cala., July 14.—The ship Shenandoah, Capt. Murphy, from New York, and ship Carleton, Captain Amesbury, from Philadelphia, both sailed for this port on March 27. At 10:30 yesterday morning the Shenandoah was sighted 80 miles outside Golden Gate, thus making the trip in 108 days. The ship Tam O'Shanter, which sailed at same time, arrived at 9 o'clock yesterday morning.

Acquitted.

PARIS, July 14.—Madame Paul Raymond has been acquitted for killing Madame DeLaporte Lassimoune, her husband's paramour and he former friend. The killing was one of the sensations of the French capital.

A Stormy Voyage.

LONDON, July 14.—The British ship Aigburth, from Oregon, has arrived at Antwerp. Heavy gales during the voyage washed the head off the main hatch. Water entered and damaged the cargo.

SMITH-MAHER FIGHT.

NEW YORK, July 14.—The following cable was received from London: "Jim Smith, English champion, has challenged Peter Maher, of Dublin, to fight for £500 a side and the championship of England, according to London prize rules, the fight to take place eight weeks from signing of articles.

VICTORIA & SIDNEY RAILWAY.

TO THE EDITOR:—I am very glad that almost every one is in favor of the Victoria & Sidney railway, and its passage without almost a dissenting vote is assured. The road will be of great advantage to me as well as all others in the same line of business. Almost all the fish for this market are caught in the neighborhood of this terminus of this road, therefore fish caught in the afternoon and evening can be delivered in this city perfectly fresh the same day and following morning. This line will also enable us to handle the fruit and vegetables of this district, which at the present time, we cannot handle to compete with American fruit on account of hauling it such a distance. I send large amounts of money to California every steamer, which I would much rather give to the people of our own country even at a slight difference in their favor. I and my people having votes, intend voting for this by-law, and I hope all citizens, who have any interest in the progress of Victoria, will do likewise. Yours very truly, GEORGE VIENNA.

A BY-LAW

In Aid of the Victoria and Sidney Railway Company.

WHEREAS, under and by virtue of an Act of the Legislative Assembly of the Province of British Columbia passed at the last session, intituled, "The Victoria & Sidney Railway Act, 1892," a company was incorporated with power to lay out, construct, maintain and operate a line of railway from some convenient and accessible point within the City of Victoria by the most feasible and available engineering route to the Townsite of Sidney in the District of North Saanich.

AND WHEREAS, under and by virtue of another Act of the said Legislature passed at the last session thereof, intituled, "The Victoria & Sidney Railway Subsidy Act, 1892," power was taken by the Government of British Columbia to guarantee the payment of interest, until maturity, at two per cent. per annum on bonds of the said railway company, issued to an amount not exceeding $300,000, or its equivalent in sterling money, the principal of such bonds to be payable not later than 25 years from their date.

AND WHEREAS, under and by virtue of section 104, subsections, 2, 3 and 4 of the Municipal Act, 1892, the Council in every municipality is authorized from time to time to make by-laws among other things for endorsing and guaranteeing the payment of any debentures or interest on any debentures to be issued by any railway or tramway company, constructed or proposed to be constructed, either wholly within the limits or partly within the limits and partly without, for the money by them borrowed, and for assessing and levying, from time to time, upon the whole rateable property of the Municipality a sum sufficient to discharge the debt or engagements so contracted.

AND WHEREAS the said Railway Company have applied to the Corporation of the City of Victoria for a guarantee of payment of interest on certain of the bonds of the said Company upon the railway proposed to be constructed by the said Company, by virtue of the said charter, to the amount of three per cent. on the sum of $300,000, for a period of 25 years.

AND WHEREAS, under and by virtue of the foregoing recited Act, intituled the "Victoria and Sidney Railway Subsidy Act, 1892, provision is made in clause 2 thereof that in case, at any time, an agreement is entered into by the Company with the Corporation of the City of Victoria for the furnishing by the said Corporation of a guarantee of payment of interest to a further amount of two or more per cent. on the bonds of the Company, up to not more than $300,000, the Government may make such arrangements for permitting the said Corporation to share any security taken by them for advances hereunder, and such provisions as to the manner of holding the same as to them may seem fit.

AND WHEREAS the said Company was thereby empowered to charge its undertaking and its tolls and property, real and personal, with the repayment of all the moneys paid by the Provincial Government in respect of the guarantee thereby authorized second and subject only to the charge given in favor of the bondholders under the Company's Act of Incorporation, and with further power to the Lieutenant-Governor in Council to enter into all agreements which might be necessary for the purpose of carrying out the provisions of the said Act.

AND WHEREAS it is desirable that a guarantee of payment of interest on bonds by the said Corporation should be made, and an agreement to that effect entered into by the said Corporation with the said Company, and that an arrangement should be made by the said Corporation with the said Government for permission to the said Corporation to share any security taken by the said Government for advance by them and by the said Corporation and otherwise as provided by the said Act.

AND WHEREAS it will require the sum of $9000 to be raised annually by special rate for paying the amount of the said guarantee in the event of the said Corporation being called upon to pay the same.

AND WHEREAS the whole amount of the rateable land and improvements of real property of the Municipality, according to the last revised assessment roll, is $17,563,145.

AND WHEREAS it will require an annual special rate of half a mill on the dollar for paying the amount of such guarantee in the event of the Corporation being called upon to pay the same.

AND WHEREAS the total amount of such guarantee in the event of the Corporation being called upon to pay the same is $9000.

THEREFORE BE IT ENACTED by the Municipal Council of the Corporation of the City of Victoria:

1. There shall be assessed and levied in each year an equal special rate of one-half of one mill on the dollar in addition to all other rates to be levied in each year for the payment of the interest payable under the said guarantee.

2. The amount of such special rate shall be collected in each year from time to time as the said Corporation may be called upon to pay the amount of the said guarantee.

3. The Corporation of the City of Victoria shall guarantee interest at the rate of three per cent. per annum on the bonds of the Victoria & Sidney Railway Company to the amount of $300,000 for a period not exceeding twenty-five years from the date of this By-Law going into effect, under and subject to the conditions prescribed in this By-Law.

4. Any sum or sums of money which may hereafter be paid by the Corporation under this guarantee shall be a first charge upon the undertaking, tolls and property of the said Company, subject only to the said bonds and to such division thereof as between the Government of British Columbia and the Corporation as may be agreed upon by the said Government and the said Corporation, and the acceptance of the benefit of this By-Law by the said Company shall be deemed conclusive evidence of the assent of the said Company to all the terms of this By-Law.

5. All the moneys obtained from the proceeds of the said bonds in respect of which interest is guaranteed by the said Corporation shall be applied by the said Company in payment of the right of way, construction, equipment of the said railway and expenses incidental thereto.

6. It shall be lawful for the Mayor for the time being of the Corporation of the City of Victoria to endorse, or cause to be endorsed, on the said bonds so proposed to be issued by the said railway company the guarantee in the form and manner prescribed in the memorandum of agreement set forth in the schedule attached to this by-law, and for the Clerk of the said Corporation to countersign and seal the said endorsements.

7. This by-law is passed upon the express condition that the said Company shall actually and bona fide commence the work of construction of the said railway on or before the first day of October, 1892, and thereafter prosecute the same with reasonable diligence until the completion of the railway ready for active operation; in any event such date of completion not to be later than the first day of September, 1894, and that a failure to observe such time limit or limits shall render the Company liable to a penalty of One Hundred Dollars ($100) per day for every day beyond such time limits the Company shall be in default in commencing or completing the said road, which said penalty may be recovered by action in any Court of competent jurisdiction at the suit of the Corporation or Government aforesaid.

8. The said Company shall not directly or indirectly employ Chinese upon, about or in connection with the work of construction, and in the event of so doing, or of any of the said Company's employees or any sub-contractor under them so doing the Company shall be liable to a penalty of ten dollars ($10) for each day for each Chinese so employed, to be recovered as specified in Clause 7 of this By-Law.

9. The Company shall not pay any dividends to any shareholder or other person so long as any money remains due or owing to the said Government or the Corporation of the City of Victoria in respect of the said guarantee.

10. The said Railway so to be constructed shall be of a standard guage and to be operated by steam power, and one train per day (Sundays excepted) shall be run over the said line from each end thereof.

11. Plans of the location of so much of the line and terminal works of the said Railway as shall be within the limits of the City of Victoria shall be filed by the Company in the office of the City Clerk, and shall be subject to the approval of the Municipal Council before any work of construction shall be proceeded with within such City limits.

12. All expenses connected with, or incidental to the passage of this by-law, shall be borne and paid by the said company to the corporation of the City of Victoria before this by-law shall be submitted to the ratepayers.

13. No contract in connection with the construction of the said proposed railway shall be let to any person or persons, firm or corporation, who have not been for over six months prior to the date of calling for tenders for the said contract, resident or residents of the said Province, from the date of receiving tenders for the said work.

14. This by-law is subject to the agreement made between the Government of the Province of British Columbia, and the Corporation of the City of Victoria, and the Victoria and Sidney Railway Company, in the words and figures set forth in the schedule hereto, which schedule is hereby incorporated herewith, and made part of this by-law.

15. This by-law shall, before the final passage thereof, receive the assent of the electors of the municipality, in the manner provided in the Municipal Act, 1892, and shall take effect on the 25th day of July, 1892.

SCHEDULE.

MEMORANDUM OF AGREEMENT made and entered into the seventh day of July, one thousand, eight hundred and ninety-two, between the Victoria & Sidney Railway Company hereinafter called the Company of the first part, the Corporation of the City of Victoria, hereinafter called the Corporation of the second part, and the Minister of Finance and Agriculture, acting for and on behalf of the Province of British Columbia, hereinafter called the Minister of the third part.

WHEREAS, The Company are duly incorporated under the provisions of the Victoria & Sidney Railway Act, 1892, and in and by the said act the Company are empowered to borrow money on mortgage or on bond or either, and they may in manner prescribed in the act issue bonds not exceeding twenty thousand dollars ($20,000.00) per mile of railway, payable at such time and in such manner and in such place or places in Canada or elsewhere, and bear such rate of interest not exceeding eight per cent (8 per cent) per annum, as the Directors may think proper.

AND WHEREAS, by section one (1) of the Victoria and Sidney Railway Subsidy Act of 1892," it is provided that the Government of British Columbia may guarantee the payment of interest until maturity at 2 per cent. per annum on bonds of the company issued to an amount not exceeding three hundred thousand dollars ($300,000) or its equivalent in sterling money, but subject nevertheless to the conditions and restrictions in the said section contained, and the company are thereby empowered to charge its undertaking and its tolls and property, real and personal, then existing, or at any time thereafter acquired, with the repayment of all moneys to be paid by the Provincial Government in respect of the guarantee thereby authorized, subject to the rights of the bond-holders for payment of the principal of the bonds at maturity.

AND WHEREAS, by section two (2) of the last mentioned act it is provided that "in case at any time an agreement is entered into by the company with the Corporation of the City of Victoria for the furnishing by the said Corporation of a guarantee of interest to a further amount of two or more per cent. upon the bonds of the company up to not more than three hundred thousand dollars the Government may make such arrangements for permitting the said Corporation to share any security taken by them for advances hereunder, and such provisions as to the manner of holding the same as to them seem fit."

AND WHEREAS, the Company have applied to the Government to give such guarantee as aforesaid of interest on the sum of three hundred thousand dollars ($300,000.00) for a term of twenty-five (25) years, at the rate of two per cent. (2 per cent.) per annum, and agreed in consideration of such guarantee to pledge its undertaking and its said tolls and property as security thereof, which the said Government has agreed to do and to accept.

AND WHEREAS, similar application has been made by the Company to the Corporation to guarantee the interest to a further amount of three per cent. (3 per cent.) upon the Company's bonds up to not more than three hundred thousand dollars ($300,000.00) which the Corporation have agreed to do but subject, nevertheless, to ratification by the ratepayers of the City of Victoria in manner prescribed by section one hundred and eleven (111) of the Municipal Act, 1892.

NOW THIS AGREEMENT WITNESSETH, that in pursuance of the premises it is hereby agreed by and between the several parties hereto, as follows, viz:—

1. The Company shall commence the construction of their said intended railway on or before the first day of October, one thousand eight hundred and ninety-two, and in default of so doing this agreement shall be void and of no effect.

2. The Company shall within ninety days (90) after the date hereof proceed to issue the whole of the bonds authorized by the said Act of Incorporation, payable in twenty-five years from date, bearing interest at five per cent. per annum, but not to exceed in the whole the sum of three hundred thousand dollars ($300,000.00), such bonds to bear coupons for the half-yearly payments of the interest thereon, which bonds, subject to the provisions of section one (1) and two (2) of the said "Victoria & Sydney Railway Subsidy Act, 1892," shall bear the following endorsement, which endorsement shall be signed by the Minister and the Mayor for the time being of the City of Victoria, and be counter-signed and sealed by the Clerk of the Corporation. "The payment of the interest but not the capital of this bond at the rate of two per cent. (2 per cent.) per annum half-yearly on the first days of March and September in each year is undertaken and guaranteed by the Government of the Province of British Columbia for twenty-five years from the first day of September, A.D., 1892, to the first day of September, A.D., 1917, and the further payment of interest but not the capital of this bond at the rate of three per cent. per annum on the days and for the time aforesaid is undertaken and guaranteed by the Corporation of the City of Victoria.

3. The Government and Corporation shall guarantee in manner aforesaid the payment of the interest on the bonds so agreed to be issued as aforesaid in the proportions and at the times aforesaid, and the signature of the "Minister" and the Mayor, respectively, to the coupons may be affixed by printed, stamped or lithographed fac-simile.

4. The work of construction shall be placed in charge of a competent engineer or engineers selected by the Company, and approved of in writing by the Chief Commissioner of Lands and Works on behalf of the Government, and by the Mayor of the City of Victoria on behalf of the Corporation, and the Company may remove such engineer at pleasure and appoint another engineer, subject also to the same approval.

5. The aforesaid bonds, when issued, shall be handed by the Company to the "Minister," who shall have them duly noted in a book to be kept for that purpose, and immediately upon completion of such noting he shall deposit the bonds in one of the charter banks carrying on business in Victoria, to be approved by the parties thereto.

6. The Company shall negotiate the sale of their said bonds as soon as possible after their issue, having due regard in disposing of them to the best advantage, and may, with the approval of the Minister and Corporation, employ such agent or agents as they may deem proper.

7. The proceeds of the sale from time to time of the said bonds shall be deposited in one or more chartered banks in the City of Victoria at interest to a special account in the name of the said Railway Company, and shall be drawn out by cheques of the Railway Company, but no such cheques shall be paid by such bank unless attached thereto is a certificate of the engineer of the said Railway for the time being, countersigned by the City Engineer and by the Surveyor General of the Province, specifying the nature and character of the work, supplies, materials or other expenditure for which such cheque is given, and such certificates shall be retained by such bank.

8. All moneys paid by the Government of British Columbia and the Corporation respectively in respect of the aforesaid guarantees shall be considered as a debt due from the Company to the said Government and Corporation respectively, and shall be taken and considered and are hereby made a charge upon the undertaking, and the tolls and the property of the Company real and personal now existing or any time hereafter acquired, and the Minister of Finance and Agriculture for the time being shall be held and deemed to be a mortgagee or incumbrancer upon the said property in trust nevertheless as to two-fifths thereof for the Government of British Columbia and as to three-fifths in trust for the Corporation.

9. The company shall upon demand made by the said Minister execute to him a legal mortgage of all the aforesaid property of the Company as security for the repayment of all moneys paid by the said Government and Corporation respectively in respect of the said guarantees and the costs, charges and expenses they may be respectively put to, or incur in connection therewith, and the said Minister shall hold the said Mortgage and all other securities, if any, of the Company which may come into his hands and the moneys thereby secured in the proportion and upon the trust hereinbefore mentioned and declared, and which said mortgage shall contain all the covenants, powers and conditions usually inserted in mortgages of real and personal property together with the additional power of sale in default of the Company operating their said Railway for a period of three months, whilst any moneys shall be owing by the Company to the Government or Corporation respectively in respect of the said guarantees.

10. The said Company hereby agree to complete their said Railway on or before the first day of September, one thousand eight hundred and ninety-four, and thereafter to continually maintain and operate the same so long as any of their said bonds shall remain unredeemed within the said period of twenty-five years.

11. Provided always that Chinese shall not be employed in the construction of the said railway, and provided also that in case a by-law to ratify this agreement on the part of the Corporation shall not be submitted within sixty days from the date hereof for the vote of the ratepayers, under section one hundred and eleven of the said Municipal Act, 1892, or if such by-law shall be submitted and shall be defeated at the polls, or shall not be carried, then, and in such case, this agreement and everything herein contained shall be void and of no effect.

12. The Company shall not pay any dividends to any shareholder, or other person, so long as any moneys remain due or owing to the said Government or the Corporation of the City of Victoria, in respect of the said guarantee.

13. The books of the Company shall be open to the inspection of any person authorized to inspect the same by either the said Government or the Corporation of the City of Victoria, at all times.

14. The Company shall operate and run over the said line of railway when constructed at least one train each way per diem (Sundays excepted) for the whole length of the railway.

IN WITNESS WHEREOF, the Victoria & Sidney Railway Company and the Corporation of the City of Victoria have hereunto respectively set their corporate seals, and the said Minister has set his hand and seal the day and year first above written.

JULIUS BRETHOUR,
President.

[L. S.] ROBERT IRVING,
Secretary Victoria & Sidney Railway Company.

ROBERT BEAVEN,
Mayor of the City of Victoria. [L. S.]

J. H. TURNER,
Minister of Finance and Agriculture.

Passed the Municipal Council the 5th day of July, A. D, 1892.

TAKE NOTICE

That the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at Burnes' building, Bastion Square, for the Centre Ward; at the City Hall, corner of Pandora and Douglas streets, for the North Ward; and at a building situated on the east side of Government street, between Broughton and Courtenay streets, and known as No. 27, for the South Ward, in the City of Victoria, on Wednesday, the twentieth day of July instant, and that the poll will be kept open between the hours of eight o'clock, a. m. and four p. m.

WELLINGTON J. DOWLER,
C. M. C.

City Clerk's Office,
Victoria, B. C., July 7th, 1892.

The Daily Times.

BE JUST AND DECENT.

The morning papers have undertaken a crusade against Dr. Milne on account of his treatment of the smallpox patient from Johnson street. The Colonist is especially earnest in its efforts to work up a bad impression against the city health officer, and the circumstances but too plainly show that political animus is the moving cause of its action. What do people think of a paper that can descend to the vile meanness of endeavoring to make political capital out of such a trouble as we have among us at present? That such is the Colonist's object is very clearly shown by its course. Its charge against Dr. Milne is that he ordered the man in question to walk through the streets from his office to the cabin on Johnson street, where he was instructed to wait until the ambulance could remove him. Now this, according to the Colonist, is a serious offence, as the paper says:—

These gentlemen (Drs. Milne, Fraser and Watt) may see nothing wrong in ordering "a walking case of smallpox" to traverse the public streets, but if they do there must, in their opinion, be no sense in the isolation of smallpox cases, the quarantining of persons suspected of having caught the disease, and the thousand and one precautions taken by Governments and intelligent people generally to prevent the spread of the disease.

In connection with this read the following passage from the Colonist's local columns of the day before:—

Yesterday afternoon Police Officer McNeill picked up a man on the streets who he supposed was sick. He took him to Dr. Davie's office, when it was discovered that the man had smallpox, as was suspected. Dr. Davie gave the man a letter to take to the quarantine and told him to go directly there and to walk in the middle of the road. Instead of going to the hospital, however, the man went to Dr. Milne's office, where he presented the note. Dr. Milne, who is the medical health officer, did not read the note, but seeing the man's condition, he ordered him home to go to bed.

If it was so very far wrong for Dr. Milne to order the man to walk from his office to Johnson street, what of Dr. Davie's action in ordering him to walk all the way to the Jubilee quarantine station, at least five times the distance? If Dr. Milne committed an offence, Dr. Davie must have committed one five times as great; yet, while censuring the former the Colonist has not one word to say in condemnation of the latter. Why has it nothing to say of Dr. Davie's course? There is only one conclusion to be drawn from this unfair action, which is, that the paper is treating the matter from a political point of view. How dirty a trick that is we need not point out to any reader who is endowed with a sense of decency and justice. Whether both doctors were wrong or both right might be considered an open question, but there can be no room to doubt that both are in the same position, and if one deserves censure the other should not escape. We feel quite certain that Dr. Davie himself would at once acknowledge the justice of that proposition. Wherefore, if the Colonist fails to censure him as it did Dr. Milne, all people will know how to interpret its silence.

As to the question of how far Dr. Milne was right or wrong not much need be said. His action is approved by Drs. Fraser and Watt, and is by implication justified by Dr. Davie's course. Further, it is admitted to have been correct by Premier Davie, whose remarks were quoted in the TIMES yesterday as follows:—

"The matter was brought to my attention last evening, and before I had heard Dr. Milne's account of it, it seemed to me that there had been considerable want of discretion, but I am now quite satisfied that no prudent man would have acted differently. The infected man came to the office of Dr. Milne, who perceiving the man's condition, and having ascertained that he had just left his cabin, ordered him back, until an ambulance, which he immediately telephoned for to the Jubilee Hospital, could be procured. The man went to his cabin, and in half an hour or so, the wagon came and took the patient to the hospital. Under Dr. Milne's directions the cabin was immediately fumigated, and another man, the only other inmate of the cabin, was taken to quarantine. From my observation the health officers have all requisite preventive measures thoroughly in hand."

We are quite free to admit that it is not pleasant to have any smallpox patient walking the streets, but it must be remembered that Dr. Milne had to choose between that evil and keeping the man in his office, where crowds of people would have come in contact with him, and where the danger of contagion would have been greater. We feel constrained to agree with Premier Davie in believing that the more prudent course was adopted.

"WITHIN FOUR LEAGUES."

The full text of the "libel and information" against the Coquitlam charges that vessel with committing certain offences against the United States laws, "within four leagues" of the shore. That is to say, the United States Government has undertaken to change the limit of jurisdiction to suit its own purposes, without consulting any other power. One league has hitherto been the limit recognized by international law. Now let the Canadian Government test this question at its earliest opportunity by seizing some American fishing vessel pursuing its calling within twelve miles of the Canadian shore. If it is illegal to transfer goods and sealskins within that limit, it must also be illegal to fish.

COMPULSORY VACCINATION.

The Encyclopedia Britannica tells us that state-supported facilities for vaccination began in England in 1808. The first compulsory act was passed in 1854, the guardians of the poor being entrusted with the carrying out of the law. In 1854 the public vaccinations under one year were 408,824, as against an average of 180,960 for several years before. The guardians appoint a public vaccinator, who must be duly qualified to practice medicine, and whose duty it is to vaccinate (for a fee of 1s. 6d.) any child resident within his district brought to him for that purpose, to examine the same a week after, to give a certificate, and to certify to the vaccination officer the fact of vaccination or of insusceptibility. All infants are vaccinated either publicly or privately, before they are three months old (in Scotland six months) unless there is reason for postponing the operation. Parents refusing to obey the summons are liable to a penalty of 20s. for each offence. In England about two-thirds of all infants are vaccinated at the public expense.

Vaccination was made compulsory in Bavaria in 1807, and subsequently in the following countries: Denmark, 1810; Sweden, 1814; Wurtemberg, Hesse and other German states. 1818; Prussia, 1835; Roumania, 1874; Hungary, 1876; and Servia, 1881. It is compulsory by cantonal law in 10 out of the 22 Swiss cantons. An attempt to pass a federal compulsory law was defeated by a plebiscite in 1881.

There are no compulsory laws in the following countries, although vaccination facilities and compulsion on various classes, such as soldiers, state employees, etc., are provided: France, Italy, Spain, Portugal, Belgium, Norway, Austria and Turkey.

In the Dominion of Canada there is no Federal compulsory vaccination law, the power to pass such legislation being vested in the Provincial Legislatures, and only in a few States or cities of the United States is compulsion the rule. Vaccination has been compulsory in South Australia since 1872, in Victoria since 1874, in Western Australia since 1878, and in Tasmania since 1882. New South Wales provides free facilities for vaccination, but does not make it compulsory. In the principal cities of India the compulsion was adopted in 1880-1884, and in Denmark in 1871 and Roumania in 1874 re-vaccination acts were adopted.

EDITORIAL NOTES.

The Colonist calls the World an "idiotic sycophant." These two Government organs are on the most intimate terms, and know each other very well. The TIMES is not prepared to dispute the truthfulness of the Victoria organ's description.

One of the morning papers says that "it is pleasant to find ourselves fighting shoulder to shoulder" with the other morning paper. The TIMES thinks that the old adage might be changed to read: "One stroke of contagion makes The o and W. Harrington kin." The Premier and the "walking editor" falling upon each other's bosoms is a picture that only Bengough can do justice to.

The Vancouver people took desperate measures to enforce the quarantine which they had illegally and unwarrantably declared against Victoria. It is more strange than edifying to find a fire brigade and a quantity of hose used in these modern days to prevent the landing of passengers from a boat which is not legally quarantined. If there had been good reason and good law for Vancouver's course in declaring quarantine there would have been no occasion for the employment of such means. The absence of both justifies the conclusion that the Vancouverites are actuated largely by vindictiveness against this city, and it would be a great pity if they were further allowed to pursue their illegal course. It is well to take precautions, but there should be some common sense displayed.

In January last the Regina Leader, of which Mr. Davin, M.P., is the proprietor, made some charges against Minister Dewdney and emitted this pious utterance:

We hope Mr. Davin will bring the Dewdney question before Parliament at the earliest moment. The House last session ordered papers moved for by Mr. Davin, but we believe they were never brought down. As for those persons who, like the anonymous correspondent to the Vidette—himself a boodler and one of the most unscrupulous wire-pulling and lobbying sharpers in Canada—try to make out we or Mr. Davin play a Grit game in denouncing Dewdney—they might as well say a doctor is an enemy of a patient when he cuts out a cancer or cauterizes an ulcer. Such fellows talking about the party, when discussing Mr. Dewdney and Mr. Davin might reflect that when Mr. Davin was fighting to bring back the Conservative party and Sir John Macdonald to power they and Dewdney were nowhere.

Singularly enough, Mr. Davin did not fulfil the Leader's hope. Only the other day Dr. Landerkin drew attention to the matter in the House of Commons, but the Speaker ruled him out of order. The gallant Davin, however, never opened his lips. The Mail charitably supposes that the action of the Government in re the Caron charges may have deterred him from proceeding.

THE VERDICT
All advertisers indorse the TIMES as the best advertising medium.
Are you in it?

THE CITY AND DISTRICT

Sheffield cutlery at Fox's, 78 Government street.

Only a Drunk.

There was only one drunk at the Police Court this morning, and as it was his first offence he was allowed to go.

Early Currants.

Mr. N. Finnerty, of Spring Park Farm, near Gordon Head, has shown to the TIMES a branch of black currants fully ripe.

Tax Notices.

City Assessor Northcott and his assistant are being kept busy getting out tax notices. The notices must all be out by Monday next.

Only One Passed.

Only one of the six candidates who took the preliminary law examination was successful. He is Arthur M. Whiteside, who is now entitled to enter as a law student and articled clerk.

It is True.

If it is not right do not do it, if it is not true do not say it. In buying the Bush & Gert's piano you do right. It is true to say it is the best piano offered for sale in this market. Agency, 37 Fort street.

Improvements.

Mr. John Teague, architect, is calling for tenders for additions to Turner and Kirk's wholesale business house at the foot of Yates street and to Tai Yune & Co's building at the foot of Pandora street.

Repairing the Deluge.

This morning a couple of the firemen were busily engaged in placing a new fire brick bottom in the furnace of the old fire engine "Deluge." Her doctor sagely remarked as he worked away, "If she don't break down she will last for years."

Wedding Bells.

Mr. Robert Grubb and Miss Ethel May Winstanley were married on Galiano Island on the 6th inst. Rev. B. Haslam tied the nuptial knot.

R. L. Allan, of Victoria, and Miss M. Hay, of Ontario, were married at Vancouver yesterday.

After Seal Skins.

Mr. H. Liebes, of San Francisco, has been in the city for several days. He says that at present he cannot make an offer for seal skins as so many are coming in daily. As soon as all the skins are here, however, he will name a price for them. The sealers are as yet undecided as to how they will dispose of them.

Officially Notified.

Captain H. G. Lewis, agent of the Marine and Fisheries Department, has official notification of the acceptance of the Albion Iron Works Company's tender for repairs to the steamer Quadra. The company commenced work this morning. The manager of the company declines to make known the contract price.

Will Not Part With Their Pastor.

A letter was received this morning from the officers of the Baptist church, La Conner, Wash., by Mr. J. L. Beckwith, stating that the congregation of that church definitely declined to allow the departure of their minister, Rev. J. E. Coombs, to become the pastor of the Calvary Baptist church of Victoria. This puts an end to the hope the congregation of Calvary Baptist church entertained of securing Rev. Mr. Coombs as their minister, and means that they will be obliged to look in some other direction for a pastor.

For the World's Fair.

The first lot of exhibits from Victoria for the World's Fair left for Chicago last week. The exhibit consists of a varied assortment of Indian curios from the tribes of Alaska and British Columbia. The collection was made by experienced men for Messrs. Kirchberg and Landsberg, who made such a good showing at the Toronto Exhibition last year. It consists of Chilcat blankets, medicine men's instruments, totem poles, basketware and in fact samples of every article made by the aborigines of the North Pacific coast. A member of the firm will leave shortly for Chicago to arrange for space.

They Were in It.

The campers at the "Lacrosse Wigwam," just across from the Victoria Gardens, say that life with them is one continual round of pleasure, save for a few accidents. Yesterday when the shades of night were falling fast, two of the best foragers sallied forth in search of fuel. They soon had their boat well loaded—heaped high, of dry fir and cottonwood—and carefully paddled campward. Near camp they forgot to be careful, the craft capsized and left the hewers of wood floundering around in the water in company with their cargo. Both were rescued, and the cook has to rustle his own wood now.

A Keepsake Gift.

A number of the young ladies who took part in the recent entertainment at the Assembly Hall, in aid of the Jubilee Hospital, called on Mrs. Wm. M. Chudley on Monday evening, and gave that lady a happy surprise. The object of their mission was the presentation to her of a handsome silver fruit spoon, which was accompanied by a note setting forth the appreciation by the young ladies of Mrs. Chudley's efforts in teaching them the "Minuet" and "Flower Dance," and asking that the present be accepted as a keepsake along with the thanks of her pupils. The note was signed by Misses Molly Patton, Flo. Gowen, Ella Whitelaw, Maud Booth, Susie Spring, Dolly Sehl, May Gowen, Emma Sehl and Bella Wilson.

Criminal Carelessness.

Some person has thrown a dead horse on the beach at Ross Bay, less than 50 yards from, and directly in front of the quarantine station, in which are now housed the little people from the Protestant Orphans' Home. The carcase has begun to putrify, and the wind which blows in from the sea bears the insufferable stench into the temporary home, greatly to the discomfort and danger of all persons therein. The police were notified by telephone this morning and the carcase was to be removed or buried before evening. Everyone who had learned of this case to-day expressed the strongest condemnation of the inhuman deed. The person who could place in jeopardy the lives of so many innocent children by his wanton carelessness deserves punishment of the most drastic description.

Newcombe Pianos.

Tone pure, sweet, brilliant, powerful. Kerr & Begg, 45 Government street. *

Disinfectants.

Use Carbo-Napthazone for disinfecting purposes. For sale by Langley & Co., 21 and 23 Yates street. *

Smallpox.

Disinfectants of all kinds may be obtained at Geo. Morison's, 55 Government street. Pocket preventatives a specialty. *

The Bastile.

Mons. Marboeuf's flag, a tricolor, is floating from the top of the Poodle Dog to-day, the anniversary of the fall of the Bastile.

No Ball Game Saturday.

Owing to the prevalence of smallpox there will be no game of ball on Saturday between the James Bays and the V.A.C's. It is not expedient to bring together the crowd which would undoubtedly want to see the match.

At Half Mast.

A number of flags were flying at half mast in respect to the late Wm. R. Brown, who, although quiet and unassuming, had a large circle of acquaintances, with whom he was very popular. Among the flags flying were A. Lewis' and G. Russell's.

An Equine Sufferer.

A gentleman who lives in the neighborhood of Cedar Hill called at the TIMES office this morning and reported that a black horse with the off foreleg broken near the shoulder has been wandering about in that locality for some days. He saw the horse last Saturday night and it was quite sound, but on Monday and Tuesday the leg was trailing along the ground as the poor animal limped past. Mr. King, a farmer in the vicinity, sent word to the provincial police to come and look after the horse, but nothing had been done up to Tuesday night. The animal is roaming in the bushes around Macrae's milk ranch. When last seen it appeared to be suffering much pain.

Death's Hand.

W. R. Brown, who has been seriously ill with smallpox for the past week, died last evening. He was very low all day yesterday and even his most sanguine friends hardly expected him to recover. The deceased was a native of North Sydney, N.S., aged 28 years. He came to Victoria seven years ago with his parents, both of whom died several years ago. Immediately upon his arrival here he entered into partnership with his brother and opened up the grocery store on Yates street. He was also interested in several of the sealing schooners. The deceased was a Knight Templar and senior warden of Victoria-Columbia Lodge No. 1, A. F. & A. M. He leaves four brothers, Messrs. R. A. Brown, P. Brown, W. Brown and one brother not in the city, and two sisters, one in Manitoba and the other in Cape Breton.

St. John's Awful Visitation.

A telegram was received this morning by Mr. Alexander MacMillan, of this city, from Mr. D. Morrison, of St. John's, Newfoundland, which will be of great interest to the many Newfoundlanders in the city. It ran as follows: "Everything destroyed east of Beck's Cove, south of military road. Loss $4,500,000." This takes about the whole of the business portion and three parts of the residental portion of the city. There are only three merchants now doing business in the devastated town, and 15,000 people, half the entire population, are absolutely homeless. The area covered by the fire is one and a half miles in length by three quarters of a mile in width, and all the buildings in that limit have been completely gutted. The splendid Episcopal cathedral, built of granite and brick and roofed with slate, supposed to be impregnable to fire, is now a heap of smoking ashes. It cost nearly half a million dollars. Help is pouring in from every corner of the Dominion and everything possible is being done for the comfort of the homeless thousands.

AN IMPORTANT DECISION.

The Conviction of Clarke for Obtaining Money by False Pretenses Sustained.

In the Court of Crown cases reserved, Mr. Justice Crease, Mr. Justice Walkem and Mr. Justice Drake presiding.

Mr. Wilson on behalf of one Clarke, convicted at the late Assizes at Kamloops, moved to quash the conviction on the ground that his client could not be said to have been guilty of obtaining money by false pretences from the Royal Insurance Co., as Howse, the local agent of the company at Nicola, not only knew that Clarke's statement of his loss was false, but induced him to make it; that, therefore, Howse's knowlege of the false statement was the knowledge of his principal, the company; and that such being the case the company could not be said to have been deceived. Held that Howse was in no sense an agent of the company for the purpose of furthering Clarke's attempt to defraud it, and that as Clarke procured the insurance money from the head office in Victoria by making a false statutory declaration sent to the office and must have influenced the manager to pay him the money, he could not be held irresponsible for his offence on the ground that Howse permitted him to deceive and in fact induced him to deceive the company for in doing so Howse could not have been acting as agent of the company but was acting in his individual capacity, adversely to its interests. Howse was not the company's agent for criminal purposes whether aimed at it or others. The conviction was therefore sustained. Mr. Smith appeared for the Crown, but was not called upon.

Balmoral hotel, finest restaurant in the province, excellent table board, European plan, homelike and cheerful. Strictly first-class. Cor. Fort and View, opposite Victoria theatre. *

STILL IN THE BALANCE.

(Continued from page 1.)

pital. Arrangements have been made for receiving the patients and they will be made just as comfortable as possible. An easy wagon has been engaged and the sufferers will be handled carefully to give them as little pain as possible. It is expected that before to morrow morning every smallpox patient will be at the quarantine stations. The houses in which they have been living will of course have to remain in quarantine for a couple of weeks.

Sweet and Bitter.

The two following telegrams were received to-day by Health Officer Dr. Milne:

Sorry to learn Victoria's misfortune. In what way can I help you? We have a vaccine farm.
PETER H. BRYCE, M.D.,
Secretary Ontario Prov. Board of Health.

John Vanhorn, M.D., Health Commissioner:—
You are hereby notified that quarantine has been declared against Victoria by Port Angeles.
HERRICK, M.D.,
Health Officer City of Port Angeles.

With relation to the name in the second telegram, "Vanhorn, M.D.," Dr. Milne explained that the great Van Horne, of the C.P.R., being known across the line as the ruler of railways, steamboat lines, etc., everything addressed to Canada in his name is sure to "get there." Port Angeles' health officer hit the mark sure enough.

Fumigating the Mails.

Postmaster Skakespeare did not receive an answer to his telegram to the Ottawa authorities yesterday, so took the matter up himself, not wishing to see two weeks' mail accumulate, and ordered the construction of a fumigating house in the court behind the post-office. This was built yesterday. It is a lean-to and measures about 12x6. It is not air tight, but that makes no difference, as the mail matter placed inside gets an ample share of the fumes. Racks are built inside, in which the letters are inserted, and when the house is full the sulphur is ignited, the door locked and the supposed bacilli left to wrestle for life with the choking fumes. Postmaster Shakespeare received another notification from the American authorities last night, something the delegation of health officers forgot when they were here, namely, that all letters must be perforated or punctured so as to allow the fumes to take full effect inside as well as outside the letter. This order is also being complied with faithfully, and each letter has a lot of holes punched in it before being hung up and cooked. From a scientific point of view this draconian system of disinfecting is interesting in many ways. For instance, letters written in copying ink are very apt to resume their state of pristine nakedness before the pen spreads the characters upon their pages and reach their destination like Tunstall's banner, "stainless white." Even letters written in ordinary black ink are affected in the same way, although not so severely, by the sulphur fumes. The recipients of these sulphuretted missives, if they wish the inscription to come up again as clearly as when written, will have to employ some other chemical process which will counteract the influence of the sulphur. Two days' mail will go forward this evening. Mr. Shakespeare informed the TIMES to-day that all mail will be thrown one day late owing to this fumigating process, that is, if no new orders come from the American authorities to increase the difficulties. It has been whispered that the American authorities have seriously contemplated having all mail from Victoria opened and read, and wherever the words "smallpox" or "varioloid," or any reference thereto occurs, to have the same obliterated with a tar brush, otherwise the mail to be peremptorily refused. Some people affect to look upon this as a mere conception of some humorist's brain.

Tricks of the Trade.

Sometimes a side light thrown upon a subject discloses depths and heights in it that the direct illumination from the front or above could not. The cant saying is that this is the age of adulteration and sham, and that even the adulterating matter itself is adulterated by something cheaper and something worse. The latest advance in the science of adulteration seems to be the manufacture of sham vaccine lymph. Two doctors were discussing the question vaccination the other day and conjecturing what could be the reason for so many of the points not "taking." "Ah," said one, "probably it was old, had been lying by for some weeks and so lost its virtue." The other, with a knowing look, said he guessed not, that probably the "points" had been dipped in a week solution of gum arabic by the astute Yankees, from whom most of the "points" lately used have come. The two doctors exchanged another knowing look, nodded, smiled and said "sad dogs," as they meandered. Nothing like this can be said against the Ontario lymph which is the genuine article.

Tough on the Boys.

The staffs in the various railway and steamship offices in the city are seriously contemplating the advisability of taking a fortnight's vacation during the present dull spell, and while the "scare" continues on the mainland. They have not sold a ticket or done any business of any kind for some days, and it is getting decidedly monotonous. United to this is the intense exasperation caused by casuals, members of the glorious army of "the boys," who drop in and tell of the perfectly splendid time they have been having up the Arm and elsewhere paddling the elegant Peterborough in the cool green shade, or picking the gay banjo by the evening camp fire while the gorgeous aroma of the baking pork and beans floats, like a beautiful dream, around them. One of these transient visitors who had been expatiating most glowingly on delights of camp in the woods he and his chums were enjoying, was told to "git right out o' this" by one of the railroad office clerks, who had murder in his bloodshot eye as he slaughtered fourteen able-bodied flies on the map as his visitor left with an airy "ta ta."

Reciprocity.

A prominent visitor who has been expressing his opinion on the smallpox question rather forcibly on account of the steamship company refusing to take him out of town, last evening loaded himself with Canadian whiskey and proceeded to paint the town red. During his perambulations he fell through a window in the N. P. R. Co.'s office. "You will have to pay for that," said the genial agent. "Make you (hic) pay for (hic) keeping me here," answered the visitor.

Will Run to Westminster.

Mr. F. W. Vincent, assistant manager of the C.P.N. Company, when asked what the company intended to do on account of Vancouver being closed against them, said that he could not say until the steamer Yosemite arrived from Vancouver. It is quite possible, however that the boats will run to New Westminster instead of to Vancouver. In that case the overland freight and passengers will be transferred at New Westminster, where the people are acting very fairly, being satisfied with an examination of the passengers and boat. The steamer Rainbow yesterday landed her freight and passengers without any trouble and on account of the increased traffic between New Westminster and Victoria the steamer Dunsmuir had to be engaged to assist the Rainbow. The two boats will arrive this evening.

Up for Argument.

The case of Shotbolt et. al. against the city of Victoria in which an interim injunction was granted by Sir Matthew Baillie Begbie, chief justice, restraining the city from maintaining a smallpox hospital at Ross Bay cemetery, came up for argument before the chief justice this afternoon. A decision had not been arrived at the time of going to press.

From the Sound.

The steamer North Pacific arrived last night from Tacoma, Seattle and Sound points with passengers, mails, freight and express packages. She discharged all freight, passengers, etc., but not a particle of return freight or a single passenger or a bag of mail was allowed on board. The steamer cleared at the usual hour for the Sound to bring over the mails, etc., this evening. To show the intense fear of contagion harbored by the timorous citizens across the water, even the consular certificate for the North Pacific's return trip had to be most carefully fumigated before the captain would allow it to be brought aboard.

The Smallpox Ambulance.

The city has been considering for some days past the advisability of purchasing a conveyance of some kind to take patients to the hospital. This has been done at last. A large, comfortable hack and team of horses were purchased to-day and will be used exclusively for the transfer of patients from the city to the quarantine stations. This ambulance will be painted in such a manner as to make it easily distinguishable from the ordinary hack.

Words of Wisdom.

U. S. Consul Myers was held up on the highway this afternoon by a TIMES man, and his opinion of the smallpox question demanded. The genial consul paused from industriously whittling a twig and smiled. "Well, I haven't got much to say about it, but I was just thinking that if the people would turn to and help the authorities all they possibly can this thing won't last very long. The authorities are doing their level best and the people should help them in every way."

At Nanaimo.

The work of fumigating the steamer City of Nanaimo, at Nanaimo, took people until 4 o'clock last night. One infant was nearly smothered. The unvaccinated, numbering 37, were then not permitted to land, and will have to remain on board until a fresh supply of vaccine is recived or return to Vancouver. Rev. G. E. Good is among the number, the most of whom are women and children.

A Cure.

An effectual remedy for smallpox found by a surgeon of the British army in China is as follows: When the preceding fever is at its height and just before the eruption appears, the chest is rubbed with croton oil and tartaric ointment. This causes tpe whole of the eruption to appear on that part of the body, to the relief of the rest. It also secures a full and complete eruption, and thus prevents the disease from attacking the internal organs. This is now the established mode of treatment in the English army in China, and is regarded as a perfect cure.

General Notes.

City druggists report sales of disinfectants still enormous. Nothing like it ever known here. Chloride of lime leads the lot by a large majority.

Dr. Watt, deputy health officer, inspected the steamer Daisy this afternoon and issued a clean bill of health. The Daisy takes her regular run to Chemainus to-morrow morning.

There will be a supply of fresh, reliable Ontario vaccine in to-night, the doctors say.

Hundreds were disappointed to-day in not being able to get vaccinated owing to the failure of the supply of lymph.

There was another small exodus of citizens to the country to-day.

Ames, Holden & Co., who employ a number of Chinese, have shut down their shoe factory for the time being. A rumor that a case of smallpox had been discovered in Chinatown led to this action being taken.

The regular meetings of Pride of the West Lodge, C.O.O.F. M.U., and Victoria West Lodge I.O.G.T. have been cancelled. There will be no meetings until further notice.

The "Single Tax."

The Single Tax is the title of a new weekly issued under the auspices of the Victoria Single Tax Club, an advance copy of which has been shown to the TIMES. It is a neat eight-page paper, devoted to the interests of mankind, and opposed to socialism, landlordism, etc. The principal of single tax is steadily gaining ground in other places, and it may yet become the rallying cry of a political party of this Province. The world is moving fast these days.

LACROSSE.

The next scheduled game of the B. C. Amateur Lacrosse Association series takes place at Westminster on Saturday next between the Vancouver and Westminster teams. Both teams are in fine form and a close and interesting game may be looked for. The Vancouvers have a decided lead over the other clubs, the result of the matches so far played standing: Vancouver, won 3, lost 1; Westminster, won 1, lost 1; Victoria, won 0, lost 2. The game played here on the 23rd of May, under protest, and won by Victoria, does not count and will have to be played over again.

ALBERNI.

We have the cheapest and most eligibly situated property in Alberni, for sale in five-acre blocks, on easy terms. Some of the choicest blocks still for sale.

KASLO CITY

KOOTENAY LAKE.

SINCE the opening of navigation many hundreds of people have poured into Kaslo City. The discoveries of last fall have proved as rich as expected, and many new ones, fully as important, have been located this spring. The Kaslo-Kootenay Land Company have built roads and trails into the important mines, and surveys have been completed for the railway. The contract for clearing the right-of-way for the latter will be let in a few days. Many substantial buildings have been erected so far this year, and a large number will be begun immediately, including a handsome hotel.

A large number of business and residential lots have been sold, and many have changed hands at a good profit. In a short time the Company will advance the price of all lots.

Now is the Time to Invest.

For prices, terms and full particulars, apply to the undersigned.

NADA THE LILY.

By H. RIDER HAGGARD.

[Copyright, 1892, by Tillotson & Son and published by special arrangement with them.]

CHAPTER XXIII.

THE WAR WITH THE HALAKAZI PEOPLE.

Now, my father, I must tell of how Umslopogaas the Slaughterer and Galazi the Wolf fared in their war against the People of the Halakazi. When I had gone from the shadow of the Ghost mountain Umslopogaas summoned a gathering of all his headmen and told them that the People of the Ax should no longer be a little people; that they should grow great and number their cattle by tens of thousands.

The headmen asked would he then make war on Dingaan, the king? Umslopogaas answered, No, he would win the favor of the king thus, and he told them of the Lily maid and of the Halakazi tribe in Swaziland, and of how he would go up against that tribe. Now some of the headmen said yea to this, and some said nay, and the talk ran high and lasted till the evening. But when the evening was come Umslopogaas rose and said he was chief under the ax, and none other, and that this was his will that they should go up against the Halakazi. If there was any man there who would gainsay his will let him stand forward and do battle with him, and he who conquered should order all things. To this there was no answer, for there were few who cared to look upon the beak of Groanmaker, and so it came about that it was agreed that the People of the Ax should go up against the Halakazi, and Umslopogaas sent out messengers to summon every fighting man to his side.

But when Zinita, his wife, came to hear of the matter she was wroth and upbraided Umslopogaas and heaped curses on me, Umbova, whom she knew only as the mouth of Dingaan, because, as she said truly, I had put this thought into the mind of the Slaughterer. "What!" she said; "do you not live here in peace and plenty, and must you go to make war on those who have not harmed you, there perhaps to perish or come to other ill? You say you do this to win a girl for Dingaan and to find favor in his sight. Has not Dingaan girls more than he can count? It is more likely that wearying of us, your wives, you go to win girls for yourself, Bulalio, and as for finding favor, rest quiet; so shall you find most favor. If the king sends his impis against you then it will be time to fight, O fool with little wit."

Thus Zinita spoke to him, and Umslopogaas could not challenge her to battle.

Now on the third day all the fighting men were gathered, and there might have been two thousand of them, good men and brave. Then Umslopogaas went out to them and spoke to them, telling them of this adventure, and Galazi the Wolf was with him.

Now a great shout rose from every throat.

"We will go with you, Bulalio, to victory or death."

So on the morrow they went and traveled fast, and after awhile entered the territory of the Halakazi. At dawn Umslopogaas looked out over the wide plains beyond and Galazi showed him a long, low hill, two hours' march away.

"There, my brother," he said, "is the head kraal of the Halakazi, where I was born, and in that hill is the great cave."

Then they went on, and before the sun was high they came to the crest of a rise and heard the sound of horns on the farther side of the rise. They stood upon the rise and looked, and lo! yet far off and running toward them, was the whole impi of the Halakazi, and it was a great impi.

Then Umslopogaas and Galazi made ready for the battle. They posted all the young men in the broken ground above the bottom of the slope, for these could best be spared to the spear, and Galazi the Wolf took command of them; but the veterans staid upon the hillside, and with them Umslopogaas.

Now the Halakazi came on, and there were four full regiments of them; the plain was black with them and the air was rent with their shoutings, and like lightnings flashed their spears. On the farther side of the slope they halted and sent a herald forward to demand what the People of the Ax would have of them. The Slaughterer answered that they would have three things: First, the head of their chief, whose place Galazi should fill henceforth; second, that fair maid whom men named the Lily; third, a thousand head of cattle. If these things were granted then he would spare them, the Halakazi; if not, he would stamp them flat and take all.

So the herald returned, and when he reached the ranks of the Halakazi he called aloud his answer. Then a great roar of laughter went up from the Halakazi—a roar that shook the earth. The brow of Umslopogaas the Slaughterer burned red beneath the black when he heard it, and he shook Groanmaker toward their host.

"Ye shall sing another song before this sun is set," he cried, and strode along the ranks speaking to this man and that by name, and lifting up their hearts with great words.

Now the Halakazi raised a shout and charged.

It was soon done when once it was begun. Some were fled and some were dead, and this was the end of that fight. No, no; not of all the fight. The Halakazi were worsted in the field, but many lived to win the great cave, and there must the work be finished. Thither then went the Slaughterer presently with such of his impi as was left to him. Alas! many were slain. But how could they have died better than in that fight? Also those that were left were as good as all, for now they knew that they should not be overcome easily while Ax and Club still led the way.

Now they stood before a hill measuring perchance three thousand paces round its base. It was of no great height and yet unclimbable, for after a man had gone up a little way the sides of it were sheer, offering no foothold to the rock rabbits and lizards. No one was to be seen without this hill, nor in the great kraal of the Halakazi that lay to the east of it, and yet the ground about this was trampled with the hoofs of oxen and the feet of men, and from within the mountain came the sound of lowing cattle.

"Here is the nest of the Halakazi," quoth Galazi the Wolf.

"Here is the nest indeed," said Umslopogaas, "but how shall we come at the eggs to suck them? There are no branches to this tree."

"But there is a hole in the trunk," answered the Wolf.

Now he led them a little way till they came to a place where the soil was trampled at the entrance to a cattle kraal, and they saw that there was a low cave that led into the cliff like an archway such as you white men build. But this archway was filled up with great blocks of stone placed upon each other in such fashion that it might not be forced from without. After the cattle were driven in it had been filled up.

"Not here may we enter," said Galazi; "follow me."

So they followed him and came to the north side of the mountain, and there, two spear casts away, a soldier was standing. But when he saw them he vanished of a sudden.

"There is the place," said Galazi, "and the fox has gone to earth in it."

Now they ran to the spot and saw a little hole in the rock scarcely bigger than an ant bear's burrow, and through the hole came sounds and some light.

"Now where is the hyena who will try a new burrow?" cried Umslopogaas. "A hundred head of cattle to the man who wins through and clears the way."

Then two young men sprang forward who were flushed with victory and desired nothing more than to make a great name and win cattle, crying:

"Here are hyenas, Bulalio."

"To earth, then," said Umslopogaas, "and let him who wins through hold the path awhile till others follow."

The two young men sprang at the hole, and he who reached it first went down upon his hands and knees and crawled in, lying on his shield and holding his spear before him. For a little while the light in the hole vanished, and they heard the sound of his crawling. Then the noise of blows, and once more light crept through the hole. The man was dead.

Then Umslopogaas crept into the hole, taking no shield, but holding Groanmaker before him, and at his heels crept Galazi. When he had gone the length of six spears he stretched out his hand and, as he trusted to do, he found the feet of that man who had gone before and died in the place. Then Umslopogaas the wary did this: He put his head beneath the dead man's legs and thrust himself onward till all the man was on his back, and there he held him with one hand, griping his two wrists in his hand. Then he crawled forward a little space and saw that he was coming to the inner mouth of the burrow, but that the shadow was deep there because of a great mass of rock which lay before the burrow, shutting out the light. "This is well for me," thought Umslopogaas, "for now they will not know the dead from the living. I may yet look upon the sun again." Now he heard the Halakazi soldiers talking without.

"The Zulu rats love not this run," said one; "they fear the ratcatcher's stick. This is good sport," and a man laughed.

Then Umslopogaas pushed himself forward as swiftly as he might, holding the dead man on his back, and suddenly came out of the hole into the open place in the dark shadow of the great rock.

"By the Lily!" cried a soldier, "here's another! Take that, Zulu rat!" and he smote the dead man heavily with a kerrie. "And that!" cried another, driving his spear through him so that it pricked Umslopogaas beneath. "And that! and that! and that!" said others, as they smote and stabbed.

Now Umslopogaas groaned heavily in the deep shadow and lay still. "No need to waste more blows," said the man who had struck first. "This one will never go back to Zululand, and I am thinking that few will care to follow him. Let us make an end; run some of you and find stones to stop the burrow, for now the sport is done."

He turned as he spoke and so did the others, and this was what the Slaughterer sought. With a swift movement he freed himself from the dead man and sprang to his feet. They heard the sound and turned again, but as they turned Groanmaker pecked softly and that man who had sworn by the Lily was no more a man. Then Umslopogaas bounded forward—on to the great rock he bounded—and stood there like a buck against the sky.

"Not so easily is a Zulu rat slain. O ye weasels!" he cried, as they came at him from all sides at once with a roar. He smote to the right and the left. Now foes were all around, leaping up at the Slaughterer; everywhere shone spears, thrusting at him from this side and from that. Those in front and to the side Groanmaker served to stay, but one wounded Umslopogaas in the neck and another was lifted to pierce his back when the strength of its owner was bowed to the dust.

For now the Wolf was through the hole and the Watcher grew very busy—so busy was he that soon the back of the Slaughterer had nothing more to fear. Bravely the pair fought, and presently one by one the plumed heads of the People of the Ax showed through the hole, and arms strong to fight mingled in the fray. Swift they came; now there were ten of them, now there were twenty, and now the Halakazi broke and fled. Then the rest came through in peace.

(To be continued.)

The reduction sale of carpets, rugs, chenille curtains and art squares still goes on at Weiler Bros. Special attention is called to some large seamless velvet squares at exceptionally good value. If you intend getting a new carpet in the near future it will pay you to come and order in now.

THE CITY COUNCILLORS

Discuss Smallpox and Find Everything Possible Being Done to Stop the Disease.

Numerous Nuisances Complained of —The Steam Wood Sawing Machines on the List.

The city council met in regular session yesterday evening. There were present Mayor Beaven, presiding, and Aldermen Humber, McKillican, Hall, Baker, Lovell, Bragg, Munn and Styles.

On motion the minutes of the meeting held on June 30th and July 5th, 6th and 11th were taken as read and adopted.

COMMUNICATIONS.

The following communications were presented and read:

From C. T. Dupont calling attention to the dangers arising from allowing steam wood-sawing machines to operate on the public streets.

Ald. McKillican advocated the nuisance should be abated, and moved that the communication be referred to the street committee with this object in view. He was supported by Ald. Hall, who seconded the motion.

Ald. Baker stated that the owners of these machines had been granted licenses, and they were entitled to consideration.

Ald. Lovell suggested that a caution to the machine owners would be sufficient.

Ald. Styles moved that the matter be referred to the police committee with power to alot space that might be occupied on streets.

Mayor Beavin pointed out that the street by-law specially stated that no wood should be sawed on the streets, and declared Ald. Styles motion was out of order.

The motion to refer the matter to the street committee was lost, and it was finally referred to the chief of police.

From the Attorney General, enclosing a copy of the rules recently passed by order in council with regard to smallpox, and referring especially to section 13, and recommending that a public vaccinator be appointed by the city.

The Mayor stated that he had advocated at a meeting of the city physicians the appointment of a medical man to vaccinate poor people at the city's expense.

Ald. Styles moved that the communication be received and the recommendation acted upon. Carried.

Ald. Baker in seconding the motion succested that an officer to assist Mr. Bailey, sanitary officer, be appointed, and also advised a thorough examination of Chinatown to ascertain if there are any other cases of smallpox there. It was rumored, he said, that Chinese peddlers visited houses where the disease existed and then called at other houses.

Ald. Munn stated that a number of the principal men of the Chinese community had expressed their willingness and offered their assistance to look through Chinatown, and in addition stated that they would be willing to erect a pest house on a plot of ground they had secured, for the use of any of their nationality afflicted and promised to pay for their care. This, he thought, was a fair and liberal offer.

The Mayor stated that if any of the guards allowed Chinamen or anyone else to visit quarantined houses, as stated by Ald. Baker, the guard should be reported at once and he would be removed.

Ald. Humber advised that an assistant to the sanitary officer be appointed.

The Mayor stated that Mr. Young had already been appointed to assist the sanitary officer. The Chief of Police had also received the signatures of 24 guards who agreed to act according to the rules just issued. There were now Dr. Milne, medical health officer, and Dr. Crompton as an assistant, the Sanitary Inspector and an assistant, and 30 or 40 guards, as well as the police.

The Chief of Police stated to the Board that he had visited all the guards and read to them the rules and regulations. They did not allow anyone to visit the houses, they said, or take anything away from them. The Chief also visited Chinatown with three medical men, and after careful examination found no cases of smallpox.

Ald. Lovell expressed himself as pleased with the report of the Chief of Police, and also the statement made by Ald. Munn that the Chinese were willing to assist the authorities.

Ald. Bragg reported that the sanitary committee were doing their utmost to help Mr. Bailey, and it was generally believed that the disease was now under control.

The mayor stated that he had received a note suggesting that all societies be asked to discontinue their meetings for the present. There was no necessity for the council taking action in this direction he pointed out, as the provincial health officer under the new rules was given power to disband meetings and stop all gatherings where he deemed it advisable.

RETURNS WANTED.

A communication was received from the deputy attorney-general stating that no returns had been made from the city regarding convictions under the Indian Act, 1887, or of certain moieties of fines which should be paid to the provincial treasury; and requesting that the returns referred to be made. The matter was referred to the mayor, police magistrate and finance committee.

From John Ellis and other residents of Seventh street, complaining of nuisances from Chinese gardens. Referred to the sanitary committee, sanitary officer and the chief of police to abate the nuisance.

From G. R. Tiers and others, complaining of a nuisance arising from drains on Niagara and Boyd streets, and asking that the nuisance be abated.

Ald. Lovell said this was the same old story, but there was necessity for action in the direction of abating these nuisances permanently.

The communication was referred to the street committee.

From Eberts & Taylor, stating that in the case of Dupont against the City of Victoria Mr. Justice Crease had issued an order to abate the nuisance complained of in seven days. Referred to the street committee.

From W. C. Nathan, asking for a box drain on Moss street. Referred to the street committee.

From McPhillips, Wootton & Barnard, stating that they had an application from a Chinaman for a pawnbroker's license. On motion of Ald. McKillican the clerk was authorized to instruct the applicants that no such license would be issued.

From James H. McGregor, complaining of a nuisance at 137 Cormorant street and asking that it be abated. Referred to the sanitary officer with power to act.

From the city surveyor, recommending that the Johnson street sewer be taken into the permanent sewerage system. Received and laid on the table.

From Auditor Rayner, submitting a statement of the receipts and expenditures of the city for the past six months, and also giving the available appropriations and unappropriated warrants. The receipts amounted to $89,644.27, and the expenditures to $118,343.62. The document was received and ordered to be filed in the city clerk's office for inspection.

From Noel Leclaire asking permission to blast two loads of rock on Cook street. Referred to the street committee.

From John G. Elliott asking that an alarm box be placed in the vicinity of the Queen City Planing Mills. Referred to fire wardens with power to act.

From J. Holland asking for an expenditure of $80 on Turner street continuation. Referred to street committee.

From G. Bailey, sanitary officer, reporting the purchase of a new wagon, horse and harness, at a cost of $310. The action of the sanitary officer was confirmed.

From John Grant and other residents on Stanley avenue, asking for water service on this street. Referred to the water committee.

FINANCE REPORTS.

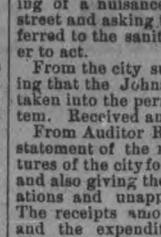
The finance committee reported recommending the payment of an account of Drake, Jackson & Helmcken of $100, services re Victoria & Sydney Railway by-law. Report received and account ordered to be paid.

The committee also reported recommending the payment of accounts amounting to $1394. The report was adopted and the accounts authorized to be paid.

The home committee reported recommending that A. Petit and Wm. White be admitted to the Old Men's Home. Report adopted and recommendation ordered to be carried out.

The meeting then adjourned.

THE MAN ABOUT TOWN.



HEN is the Canada Western Hotel to be built? This scheme was launched amidst the good wishes of many and the financial support of not a few. The excavation at the end of Government streets looks like a standing advertisement of blighted hopes. A great many hotels have been launched during the past year or so, yet I venture to predict that this, properly built and equipped, would yield adequate returns to the promoters. At present it means considerable loss of interest and taxes to the unfortunate promoters.

At election times one hears a great deal about supporting local industries. Blatant patriotism is aroused, urged by interest and fanned by party zeal. The contest over and the "local industry" cry dies an unnatural death.

I think Victorians are less clannish in this respect than Vancouver. If the latter city starts a factory or manufacture the merchants there are very ready to handle their products. Ex-Mayor Oppenheimer is a shining example in this respect and will always push local goods to the exclusion of others, whilst the very reverse seems to be the feature of much of the trading in our city. Witness the difficulty of inducing local traders to purchase agricultural and horticultural products from our own growers.

The morning papers are seeking to divide honors in their abuse of Dr. Milne. But what about Dr. Davie's position in the same business? If Dr. Milne was remiss *secondly*, Dr. Davie was *firstly*, and yet the two papers with evident animus and blind partisanship ignore the neglect of Dr. Davie. To make capital out of a reasonably explained incident is unworthy of honest journalism. If the municipal health officer was guilty of neglect, immeasurably more so was the provincial health officer, for he is the supreme powor and gifted with absolute authority. In my judgment the ambulance ought to have been sent for by Dr. Davie, who FIRST knew of the case. "Thou hypocrite, first cast out the beam out of thine own eye; and then shalt thou see clearly to cast out the mote out of thy brother's eye." The Premier's brother ought not to be shielded more than any other hard-worked medical gentleman. Yet the coloring to the incident given by both papers is both foolish, overdrawn and unpatriotic. COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL | THE SOUTH FIELD COAL

(Used principally for Gas and Domestic Purposes). (Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, high Illuminating Power, unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

NANAIMO NEWS.

Health Officer Appointed—No Quarantine Against Victoria—Precautions.

NANAIMO, July 14.—Mr. M. Bray, Government Agent, has appointed Dr. Praeger health inspector for the districts, and now they will be subject to the same measure now in force in the city. The doctor is known to be very courteous to visitors, and many ladies from Victoria laud him for the manner in which they have been treated on their arrival here. The danger of smallpox breaking out beyond the city limits will now be decreased considerably by this appointment.

In accordance with the request of the health officer, the moonlight excursion which was to have taken place to-night has been further postponed until August. While the members of St. Paul's Institute regret to disappoint the holders of tickets who have looked forward to this pleasure trip, they feel sure one and all will approve of the decision arrived at, and no doubt when it does come off it will be enjoyed all the more.

A branch office of the Coast Seamen's Union has been opened in Hilbert's Block on Wharf street. Mr. C. Glynn, the energetic provincial agent of the Union, has been placed in charge and as he is well known no doubt he will be the means of doing much good among the seafaring community.

The Association football teams of Nanaimo, Northfield and Wellington intend to club together and purchase fifteen gold medals, then a series of matches will be arranged and the winners will take the golden emblems.

After being properly fumigated the steamer City of Nanaimo was allowed to come alongside and land her passengers, with the exception of those who had been unvaccinated. Those who were released are loud in their condemnation of the action of the health officer, as naturally they were expected to be, but the general verdict of the remainder of the citizens is that the doctor should have sent them back to Vancouver.

There is no foundation for the report in Victoria papers that Nanaimo has quarantined that city.

At the annual meeting of the hospital subscribers last evening, held in the city hall, the report for the year was read and showed the institution to have been cleverly managed. Out of the large number of patients who were taken in during the year only nine deaths occurred and these it must be borne in mind had been seriously injured in the mines so that only a miracle could have saved their lives. After the reports had been approved the following officers were elected: Mr. J. Paneson, president; Mayor Haslam, vice president; Mr. D. Smith, secretary; Mr. W. E. Webb, treasurer; committee: W. H. S. Perkins, J. Kelley, C. C. McKenzie, J. E. Jenkins, and Marcus Wolfe.

Terrorized by Ruffians.

ST. PAUL, July 14.—The village of Burns, just over the Mississippi river, in Anoka county, is in the midst of terrors, and the town is practically in the hands of a gang of desperadoes, who are burning buildings and threatening the lives of citizens. George Small, a wealthy and prosperous farmer has been making very active efforts to lodge one of the ruffians behind the bars. A warrant was sworn out against one of the gang, but it has never been served. The whole populace is terrified, and the gang's actions are constantly causing annoyance. The grave crime of arson has been laid at their doors several times. On Monday the handsome residence of Small was set on fire, and after a fierce fight by the family and neighbors the flames were extinguished. On Wednesday Small was in Anoka, and in the evening word was brought to him that his elegant residence had been again set on fire by unknown desperadoes and totally consumed.

Shot His Mistress.

BAY CITY, Mich., July 14.—Lucian Bartley, employed in a sawmill at West Bay City, went to-day to the house of James Holliday, father of his mistress. The woman was sitting on the door step when the man arrived, while playing near by was a little boy five years old, child of the pair. After a brief conversation he shot the child in the abdomen. The woman ran to the child, and picking him up, started for the house. Bartley then shot her in the hip. Before he could be disarmed, Bartley turned the revolver on himself, inflicting a fatal wound in the neck. The Holliday woman was immediately attacked with labor pains and gave birth to a male child, four hours after the shooting.

What Cleveland is Doing.

BUZZARD BAY, Mass., July 14.—John Chamberlain, of Washington, arrived here this evening from Boston to pay his respects to Mr. Cleveland, and also it is believed to arrange matters of importance to himself with the ex-President. He spent an hour or so at Grey Gables to night with Mr. Cleveland. Fishing for the time being was given up and Mr. Cleveland is spending most of his time in his new out of doors office, working at his correspondence, with Robert Lincoln O'Brien as his temporary secretary.

Astor Improving.

LONDON, July 14.—Mr. Waldorf Astor continues to make rapid progress towards recovery. The author of the bogus despatch announcing his death is being diligently sought. The despatch was signed "Clement." The family are surprised that the announcement was accepted by New York Astor agents, as no man named Clement is connected with the Astors in any way.

A C. P. R. PROJECT.

Another Line to New York—To Bridge the Niagara River.

NIAGARA FALLS, July 14.—The Canadian Pacific it is stated on the authority of prominent railway officials who were at Clifton to-day, will bridge the Niagara very shortly. The long talked of scheme of that road for securing direct communication with New York seems now about to be realized. A line is to be constructed from Woodstock to Niagara Falls and agents of the road are now purchasing the right of way between Welland, Ont., and Woodstock. For some time tenders for the construction of a bridge across the Niagara Falls have been in the hands of the management of the Canadian Pacific Railway, and a few days ago one of the tenders was virtually accepted; The plans have been returned to the successful contractors to undergo slight alterations, recommended by the railway company. The bridge will be constructed between the present cantilever and the new span bridge, and will consist of single arched steel span resting on buttresses on either bank, 200 feet apart.
